## MESSAGE FROM THE HON'BLE VICE CHANCELLOR

It is with great joy and immense pride that I share that Delhi Technological University is organizing the Homecoming Meet, 2025 on 11<sup>th</sup> April, 2025 to celebrate the Diamond, Golden and Silver Jubilee for the Class of 1965, Class of 1975 and Class of 2000, respectively.

This special gathering is not only a chance to relive cherished memories but also a testament to the enduring connection between our university and its alumni. More than just a reunion, it is a celebration of the lifelong bonds that unite us and a platform to forge new relationships that will further strengthen our DTU-DCE fraternity.

Our university has been the nurturing ground where the aspirations of all our alumni first took root, where their dreams were shaped and set forth on the path to becoming extraordinary realities. It was here that they learned to persevere, to strive, and to script the first pages of their inspiring journeys. It fills me with immense pride to see our alumni carrying forward the values of determination, excellence, and integrity across the world. I am proud to share that our alumni are excelling as top engineers, distinguished academicians, skilled managers, influential leaders, renowned policymakers, successful innovators, and entrepreneurs both in India and abroad. Their unparalleled achievements will always remain a source of great inspiration to the generations to come.

I also take this opportunity to express my heartfelt gratitude for all our alumni around the world who have continued to contribute towards the development and advancement of their alma mater with their open hearted contributions. Their support for our university - through endowment funds, scholarship funds, intellectual engagement, and mentorship - has been both invaluable and inspiring. I assure our alumni and stakeholders that, with their steadfast support, the University community continues to progress, inspired by the legacy of their achievements.

On this momentous occasion of the Homecoming Meet 2025, I wish to congratulate the entire DTU-DCE family. I am sure that this Homecoming Meet will be a joyous celebration of our shared heritage and an opportunity to reconnect, reminisce, and strengthen the bonds that tie us together.

(Prof. Prateek Sharma)

### MESSAGE FROM THE REGISTRAR

I am pleased to know that Delhi Technological University will host the Homecoming Meet 2025 on April 11, 2025, to celebrate the Diamond, Golden, and Silver Jubilee milestones for the Classes of 1965, 1975, and 2000, respectively. I am sure that this event will be an occasion to relive old memories and to create many more unforgettable memories.

The most transformative phase in an individual's life occurs during their foundational education after school. This is when students evolve into professionals, gaining academic excellence, intellectual strength, and moral integrity. It is both a pivotal and cherished period in one's journey. I take great pride in knowing that our university has nurtured countless successful alumni who spent their formative years within our classrooms.

Alumni are the true legacy of an institution, reflecting its academic excellence and core values. We take immense pride in our graduates, whose remarkable achievements have brought global recognition to our University. Beyond professional excellence, they have made a lasting impact on society, leading with vision and integrity in their respective fields.

I also take this opportunity to thank all our alumni for their generous contributions through their time, efforts, expertise and resources. Their contributions through all these years have led to a significant growth of our institution. DTU is committed to fostering meaningful relationships and strengthening them to drive the University's comprehensive success.

I congratulate the entire DTU-DCE family on occasion of Homecoming 2025 and wish that this event turns out to be joyful and fulfilling for everyone. I look forward to having you all at the Homecoming Meet.

## MESSAGE FROM THE DEAN ALUMNI AFFAIRS

I am pleased to share that Delhi Technological University (formerly DCE) is organizing the Homecoming Meet 2025 for its Diamond, Golden and Silver Jubilee batches. This get-together will offer a special platform for alumni to reunite with their peers, relive fond memories, and strengthen their lifelong association with the university. It will also serve as an occasion to foster new connections and celebrate the enduring spirit of the DTU-DCE community.

College life is often considered one of the most cherished phases of our journey, with memories that last a lifetime. It is a time when friendships are built, knowledge is gained, and experiences shape our future. We take immense pride in the fact that the roots of our world-renowned alumni were nurtured within the halls and classrooms of our university, where their journey of excellence first began.

DTU is immensely proud of all our alumni, whose remarkable contributions have left an indelible mark on the world and have earned recognition on both national and global platforms. We are proud of their impactful contributions in diverse fields. Their contributions have been and will always be a source of great inspiration for our entire community.

DTU is privileged to have a community of dedicated and generous alumni who, over the years, have remained deeply connected to their alma mater. Their unwavering support—through endowment funds, student mentorship, and various other contributions—has been instrumental in strengthening the University's foundation and fostering its continued growth. I take this opportunity to express my gratitude to all our alumni who have been a strong pillar of support for the University.

I am confident that this Homecoming Meet will be a unique platform for meaningful interactions between our esteemed alumni and the DTU-DCE community. I extend my best wishes to all for its success.

### MESSAGE FROM THE ASSOCIATE DEAN ALUMNI AFFAIRS

I am delighted to share that Delhi Technological University (formerly DCE) is hosting the Homecoming Meet 2025 to honour the Class of 1965, Class of 1975 and Class of 2000 who are celebrating their Diamond, Golden, and Silver Jubilee this year. This event will be a wonderful opportunity for our alumni to reminisce about their time at the university, build new relationships and celebrate the rich legacy of the DTU-DCE community.

The years spent at college are among the most cherished chapters of one's life, leaving an imprint that time cannot erase. Though we move beyond the walls of our classrooms, the lessons, friendships, and experiences remain deeply ingrained in our hearts. Our professors, peers, and the countless memories shaped within our alma mater continue to inspire us long after we have left. This Homecoming Meet presents a special opportunity to reconnect, reminisce, and relive those unforgettable moments.

Delhi Technological University (formerly Delhi College of Engineering) takes immense pride in its alumni, who have excelled in diverse fields and hold prestigious positions worldwide. Their remarkable achievements have not only brought great honour to the institution but have also set a benchmark for future generations. We are truly grateful for their continued support through endowment funds, student fellowships, and numerous other contributions, which have played a vital role in strengthening the university's legacy and fostering its growth.

This Homecoming shall be an occasion to celebrate and reinforce the lifelong bond that the University shares with them. It shall be a celebration of the enduring connection between the university and its graduates, bringing together generations of the DTU family under one roof. This special gathering will not only rekindle fond memories but also provide a platform for meaningful interactions, new collaborations, and shared nostalgia.

I am certain that this event will be a joyous and unforgettable experience for the entire DTU alumni community. I look forward to welcoming all the alumni at the Homecoming Meet-2025.

(Prof. Yasha Hasija)

# *About Delhi Technological University*

Delhi Technological University has been a beacon of academic excellence and innovation for the past 83 years. The university has garnered recognition for being an eminent institution, known for its academic research and entrepreneurial excellence in a plethora of fields. Delhi Technological University has adopted the principles of knowledge, critical thinking, creativity and innovation at the core of its education policy, all while embracing integration, access and inclusivity. With an aim to provide a holistic education, conventional classroom teaching has been merged with innovative methods fostering curiosity and academic prowess in our students. From its inception as Delhi Polytechnic to its present-day identity as Delhi Technological University, the university has always championed the cause of providing students with a high-quality education that allows them to flourish in their chosen domains. Along with imparting knowledge, the University has achieved pioneering advances in undertaking creative and internationally relevant research and innovation over the years.

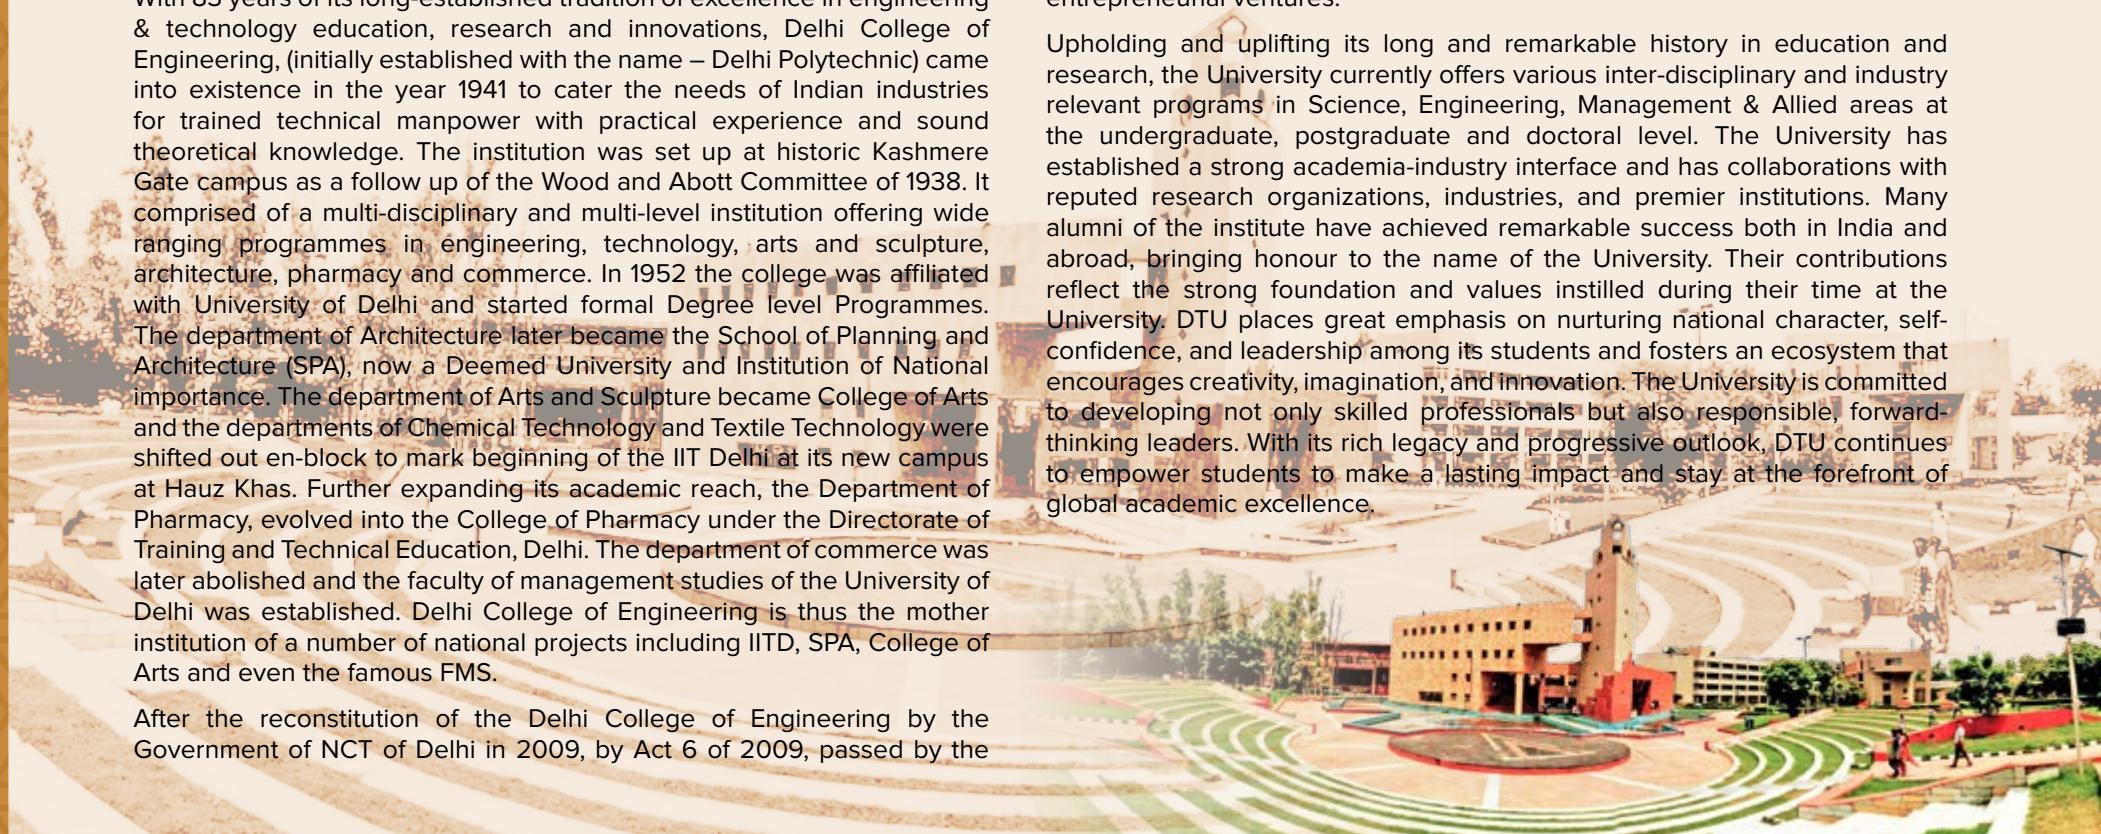

With 83 years of its long-established tradition of excellence in engineering & technology education, research and innovations, Delhi College of Engineering, (initially established with the name – Delhi Polytechnic) came into existence in the year 1941 to cater the needs of Indian industries for trained technical manpower with practical experience and sound theoretical knowledge. The institution was set up at historic Kashmere Gate campus as a follow up of the Wood and Abbott Committee of 1938. It comprised of a multi-disciplinary and multi-level institution offering wide ranging programmes in engineering, technology, arts and sculpture, architecture, pharmacy and commerce. In 1952 the college was affiliated with University of Delhi and started formal Degree level Programmes. The department of Architecture later became the School of Planning and Architecture (SPA), now a Deemed University and Institution of National importance. The department of Arts and Sculpture became College of Arts and the departments of Chemical Technology and Textile Technology were shifted out en-block to mark beginning of the IIT Delhi at its new campus at Hauz Khas. Further expanding its academic reach, the Department of Pharmacy, evolved into the College of Pharmacy under the Directorate of Training and Technical Education, Delhi. The department of commerce was later abolished and the faculty of management studies of the University of Delhi was established. Delhi College of Engineering is thus the mother institution of a number of national projects including IITD, SPA, College of Arts and even the famous FMS.

After the reconstitution of the Delhi College of Engineering by the Government of NCT of Delhi in 2009, by Act 6 of 2009, passed by the

assembly of the NCT of Delhi, DCE became Delhi Technological University. It is a non-affiliating, teaching and research University, committed to achieve excellence in Engineering, Science, Technology, Management and allied areas. Over its rich history of over 83 years, the institution has been serving the nation and the global community since its inception in 1941, by providing trained manpower of highest quality in the field of engineering and technology, and is globally well known for its outstanding education, research and innovations.

DTU remains committed to cultivating a culture where scientific research fuels technological advancement and technological ingenuity enriches scientific exploration so that science and engineering seamlessly converge. The University is dedicated to nurturing innovation by promoting industrially relevant projects, technology incubation, and research-driven education with the help of a dedicated Incubation and Innovation Foundation. With a strategic focus on cutting-edge research and development, DTU continues to expand its footprint in pioneering innovations, interdisciplinary collaboration, and entrepreneurial ventures.

Upholding and uplifting its long and remarkable history in education and research, the University currently offers various inter-disciplinary and industry relevant programs in Science, Engineering, Management & Allied areas at the undergraduate, postgraduate and doctoral level. The University has established a strong academia-industry interface and has collaborations with reputed research organizations, industries, and premier institutions. Many alumni of the institute have achieved remarkable success both in India and abroad, bringing honour to the name of the University. Their contributions reflect the strong foundation and values instilled during their time at the University. DTU places great emphasis on nurturing national character, self-confidence, and leadership among its students and fosters an ecosystem that encourages creativity, imagination, and innovation. The University is committed to developing not only skilled professionals but also responsible, forward-thinking leaders. With its rich legacy and progressive outlook, DTU continues to empower students to make a lasting impact and stay at the forefront of global academic excellence.

### Brief Bio-sketch

- Extensive experience in the production of various chemicals, including Caustic Soda and B.H.C. plants. As Senior Project Engineer (Chlor-Caustic Division) at Hindustan Paper Corporation Ltd., Kolkata, managed project planning and execution, including product selection, feasibility studies, site selection, engineering, contracting, and plant commissioning.
- Awarded the UNIDO Fellowship (1980) for advanced training in Chlorine Dioxide production, collaborating with leading European chemical organizations including (i) M/s Kerbs & Co., A.G., Switzerland (ii) Leykam-Murztaller Papier and Zellstoff AG, Austria (iii) Veb Zellstoff and Papierfabrik, Germany (iv) Peroxide-Chemie Gmbh, Germany
- As Vice President (Technical/Projects), played a key role in establishing several foundational projects:
- Pentaerythritol Plant Erection & Commissioning (1982-83) – Overcame significant technological failures to bring the plant online after process licensors withdrew, ensuring successful commissioning.
- Pentaerythritol Plant Upgradation (1987-88) – Introduced Membrane Cell Technology in collaboration with Asahi Glass, Japan, expanding capacity from 1200 TPA to 5000 TPA.
- Acetaldehyde & Formaldehyde Projects (1987-90) – Led the establishment of a 2500 TPA Acetaldehyde plant and a 20,000 TPA Formaldehyde plant, implementing advanced Molybdenum Oxide catalyst technology from Perstorp AB, Sweden.
- Chemical Plant Expansions (1992-93) – Spearheaded the commissioning of a 2000 TPA Hexamine plant (1992), doubled Formaldehyde production from 20,000 TPA to 40,000 TPA (1992), and expanded Acetaldehyde capacity from 2500 TPA to 5500 TPA by setting up an additional 3000 TPA Acetaldehyde plant (1993).
- Industrial Alcohol Project (1994) – Established a 45 KLPD plant .
- From November 1997 to April 2002, served as a Consultant with M/s Perstorp AB, Sweden, playing a key role in their mega project in Vapi, Gujarat, with a capital outlay of US\$ 32 million
- Demonstrated expertise in executing complex projects efficiently, ensuring completion within time and budget, and making a lasting impact on the industry.

**BATCH  
1965**

**BRANCH  
Civil Engineering**

**PRESENT AFFILIATION  
Retired Additional Director  
General, CPWD**

**COUNTRY : India**

### Brief Bio-sketch

- I, P S Chadha had an extra long association with my alma mater, Delhi College of Engineering which was originally called Delhi Polytechnic - the only degree engineering college in the country which was directly under the control of Central Government. I joined Technical Higher Secondary School which was part and parcel of Delhi Polytechnic in 1957. I completed my Technical Higher Secondary schooling in 1960 and thereafter joined Pre- Engineering in Delhi Polytechnic. After completing Pre- Engineering , I got admission in BE(Civil) in 1961 in Delhi Polytechnic . I completed my BE(Civil) in 1965 and thereafter joined CPWD where I retired as Additional Director General in year 2002.
- During my stint with CPWD, I was fortunate enough to be posted Project Manager incharge for construction of new campus of DCE at Bawana in 1993. During my tenure the entire pile foundation of all the buildings was got executed from a specialised agency after taking due approval of DUAC and MCD. The foundation stone was earlier laid by Dr Shankar Dayal Sharma, the then Vice President of India. Sh. Sahib Singh Verma, the then Development Minister of Delhi Govt. took special interest in our project and helped us in obtaining approval of project drawings from MCD expidishly. Thereafter superstructure was taken up. The Administrative block was the first building to be completed. We worked in close liaison with Dr P B Sharma, the then Principal of DCE so that the entire college get shifted to new campus in phases. The remaining buildings namely Academic Block, Library building, Computer Centre, Workshops. 6 no Hostel Buildings etc were in different stages nearing completion when I got promoted and posted as Chief Engineer, Chandigarh in 1996 where I was looking after all Central Govt. works in northern states of Haryana, Punjab, Himachal and J&K.
- My last posting in CPWD was at Kolkata where I was posted as Additional Director General to overlook all construction work of Central Govt in Eastern Region comprising States of West Bengal, Orrisa, Bihar, Assam Meghalya. Tripura etc
- I retired from CPWD in year 2002 and thereafter I had a long stint of 16 years as Consultant in Indian Buildings Congress, an NGO which connects all professionals connected with Built Environment for construction of sustainable, affordable & energy efficient buildings. Simultaneously I was doing Arbitration Cases of disputes related to construction industry for different departments like CPWD, NHAI, DDA, EPI, ITPO etc

- Anil Sachdev's burning desire to serve the country propelled him into the Indian Army. The same code of his commitment to serving others led him to become one of the founding Trustees of Koshika. Anil brings his special abilities of connecting, communicating and collaborating to build enduring relationships. Joining the Army, in 1976, in the Corps of Electrical & Mechanical Engineers, Anil held various Staff, Command and instructional appointments including as Director of Technical Studies (Officers Technical Staff course) at the prestigious Institute of Armament Technology at Pune. Opting to take premature retirement, as a Lt. Colonel, from the Army, Anil started in his new avatar of an entrepreneur in 1997. He established Astra Consultants, a HR Placement and Consulting services organisation, specialising in Head-hunting senior IT and Software professionals for corporations in India and abroad. Anil is a Mechanical Engineer from the Delhi College of Engineering (1975 batch). While in the Army, Anil successfully attended sponsored courses leading to M.Tech in Thermodynamics & Heat Engines and Post Graduate Diploma in Management.

**Spouse's Engagement**  
**Retired as TGT Teacher.,**

### Brief Bio-sketch

- Joined BHEL in Jan.1976 as Engineer Trainee,after working with DCM Textile mills for a short period of three months.
- Joined BHEL in Oil Rigs Division. It was privilege posting as it was very new division in BHEL which took challenge to manufacture onshore electric drilling rigs first time in the country. This was subsequent to oil crisis due to Gulf war in early seventies.
- Out of my 38 years of service in BHEL, I spent 25 years in dealing with Oil Rigs and Oil Field Equipment business. Remaining years, I spent dealing in Transportation Systems and Industrial Products business. Most of the years, I spent in MARKETING of Oil Rigs, Oil Field Equipment and Fabricated Equipment viz. Pressure Vessels, Heat Exchangers and Columns for Oil Sectors.
- In transportation Systems Group, I was entrusted with a project for development of 10 nos. Battery Powered Road Vehicles(BPRV). This project was entrusted to BHEL by Department of Science & Technology ( DST) of GOI. After successful development of these vehicles, these were showcased by deploying them in Siri Fort Complex created for housing of international players during Asia-82 Games. I got appreciation from BHEL for development of these pollution free vehicles.
- During my service of 38 years in BHEL, I worked in various positions and retired as General Manager(Marketing) in February 2014.

### Memorable Event/Experience in DCE

There are many sweet memories of college days. I try to recollect few of them.

- One most sought after event used to be attempting mass cut. After successful mass cut, either we used to go for movie or playing cards in the hostel. We used to go for movies in the nearby theatres viz. Ritz & Minerava which were at walking distance from college. Rajesh khanna was super star during those days. I remember seeing his movies, Aradhana, Do Raste, Amer Prem, Safer and many more. As me and my other buddies were day scholars, we used to pleaded hostellers to allow us playing cards in their room. Also listening to cricket match commentary on transistors during test matches was also major reason for mass cut.
- Other major memorable event was very long strike by college teachers. Initially we enjoyed the period free of classes. We were in second year. But after some days we were worried about the loss in our studies. Then one day whole college students took a procession to Chief Executive Councillor's (equivalent to today's Chief Minister)office in Old Secretariat with the demand for opening the college early. Students' crowd was lathi charged outside the CEC's office as many students tried to enter his office.
- After opening of the college, semester period was shortened. First semester exams took place in Feb- March. Second semester was held from April to June during the peak of hot summer. Therefore college timings were changed i.e. from 7.00 AM to 1.00PM. We even enjoyed that period due to reduced study hours in college.
- There were many eating joints near our college. Having lunch with varieties of food at those dhaba type joints are also memorable days.
- Writing these memories more than 50 years old have taken me to nostalgic and beautiful memory lane.

## Deepak Malhotra

ROLL NO.  
**22/70**

BATCH  
**1975**

BRANCH

AFFILIATION  
**Executive Director, Engineers India Ltd**

COUNTRY : **India**

Spouse's Name  
**Alka Malhotra**

Spouse's Engagement  
**Retired PGT Science**

### Brief Bio-sketch

Started my journey with Engineers India Ltd as junior engineer. I joined the company at Vadodra. I was responsible for the mechanical completion of HDPE project and then ACF project at IPCL project. After completing these two Projects, I was shifted to head office in New Delhi. Here I was placed in the Material group in Refinery design section. I learnt nitty gritty about Piping Material and then shifted to piping layout section. I got regular promotions in EIL. After about 10 years of experience I was handling a group of about 100 engineers in Piping Department and was handling a grass route refinery design of Panipat Refinery of 6 MMTPA. After the successfully completion of Panipat Refinery Project, I had completed many grass route refineries like Bhatinda Refinery, Bina Refinery and expansions in almost all of the refineries in India.

- I went on an assignment abroad in Iran to recommission the war damaged Refinery.
- And finally I retired as Executive Director Engineering in the Year 2013.
- After retirement, I joined Samsung Engg India pvt Ltd as there Senior Vice President Engg and was Head of Engineering in Delhi office, reporting to MD who was a Korean. During my time company grew from a group of 300 persons to 1500 persons. I was in the company for 4 years.
- Then I shifted to An US based company M/S Bechtel Engineering India Pvt Ltd as Engineering Manager. Worked there for many international project in the countries like US, Indonesia, Saudi Arabia etc.
- And finally hung my boots in the year 2021 during second covid.
- Now I am working as Director Engineering with a small company and enjoying retired life.

### Brief Bio-sketch

- An engineer, not only by qualification but also at his core. After his graduation from DCE, he started his career in 1976 in Field engineering services with BHEL. A person who placed "commitment and loyalty" above all else, he lived by his ideals and spent his entire professional career with only one organization.
- A master problem solver, he was always one to take on unique and challenging assignments across various divisions in the company. Starting his career with a 15 year stint in Field Engineering Services where he understood the base level intricacies of the Boiler Power plant setup, he moved on to the Spares Business Group (which he went on to head at the Trichy Unit and then at the Corporate Level).
- Because of his astute understanding of challenges faced by customers from his FES days, he took the approach of preemptive and preventive issue solving growing the Business Group by 10x in his stint. Post this, his tenure at International Operations where he handled complicated projects and territories like the country of Libya added to his global exposure including a deep view of problems faced by the Customer as well as the Organization in execution at various levels.
- This ultimately paved his way to head the Project management function for BHEL at a corporate level (He retired as ED Project Management Group) where he was one of the people instrumental to ensure all time record level delivery of Projects. Managing a portfolio of 100+ projects, quality excellence and integrity were his trademarks, and he always knew how to get all stakeholders at the table to move towards a common goal.
- Always striving to keep himself updated, he had an in-depth understanding not only of associated disciplines like Electrical Engineering and Metallurgy, but he also felt very comfortable navigating the concepts of digital technology, Finance Management and Marketing. He was also nominated by BHEL for a course in IIM Kolkata and attended several other international seminars as a trainer as well as a student during his career.
- After his retirement from BHEL, he was hand - picked as Chief Project Advisor for the now successfully running IIM Kashipur Campus.
- Hardworking and driven, he was regarded as the go-to problem solver. Not only was he a great professional and inspiring mentor but also the life of every party, always ready with a joke. He brought the same commitment to his personal life - A person who knew the value of relationships, he is still remembered as a person who left a mark on everyone he met. Be it his quick wit, unwavering support and dependability, Mr. Jainender Kumar added value in whatever endeavor he undertook..

### Memorable Event/Experience in DCE

- I was one of the key initiator of EngiFest in 1974.
- A poem on DCE:**
- In Delhi's heart, where knowledge reigns
- A hub of tech, where minds sustain
- Delhi College of Engineering, a name so fine
- Where I spent my days, and nurtured my mind
- Memories of college fresh and bright
- Early morning lectures, and late night fights
- Over projects and deadlines, we toiled with zeal
- Our passion for learning, forever would reveal
- From Mechanics to Strength of Materials, we explored with glee
- Thermodynamics to Engineering Drawing our minds could see
- Theories and formulas, we grasped with ease
- And applied them to problems, with expertise
- In the labs, we experimented with care
- Testing hypotheses, and analyzing with flair
- Our professors guided us, with patience and might
- Helping us shape, our future in sight
- Friendships forged, in the college grounds
- Laughter and memories, forever resound
- From canteen chats, to library sessions long
- We supported each other, right and wrong
- Now as I look back, on those college days
- I realize the value, of those knowledge-filled ways
- Delhi College of Engineering, a part of my past
- A foundation that shaped me, to forever last.

### Memorable Event/Experience in DCE

My association with DCE has been nothing short of spectacular and exhilarating. The years 1970 to 1975 were among the most significant and tumultuous in the college's history, shaping its destiny. I was not only a witness to the large-scale changes that took place but was also closely and actively involved in the students' struggles to achieve remarkable milestones.

I was deeply associated with several pivotal events that had a lasting impact on the academic, social, and cultural landscape of the college. Some of the major events and associations include:

1. 1970: The semester system was introduced for the first time after prolonged student demands.
2. 1970: The carry-over scheme was introduced, allowing students to reappear in subjects or papers they had failed without losing a year.
3. 1970: The college's student union became affiliated with the Delhi University Students' Union (DUSU). This facilitated inter-college communication among students and faculty, enabling our students to participate in DUSU events and elections.
4. 1970, 1972, and 1973: I was elected Supreme Councillor and represented my college in the Delhi University Students' Council (DUSU).
5. 1971: Became the Secretary of the college Dramatics Society.
6. 1973: Became the President of the Dramatics Society and Cultural Secretary of the college.
7. 1975: Became the President of the Students' Association of the college.
8. 1975: After prolonged struggles and negotiations, I successfully advocated for significant amendments to student regulations, including:
  - Extending the carry-over scheme from one year to three years.
  - Reducing the minimum attendance requirement from 75% to 60%.
  - Mandating the "best of three" sessional examination scheme for students.
  - Laying the foundation of the Freshers' Welfare Society.
9. Organized the first-ever ENGIFEST, a grand cultural festival in the college's history. Over 30 colleges from Delhi University and other universities participated, with more than 300 students (both male and female) and faculty members in attendance. This event significantly boosted the college's reputation among top institutions in North India.
10. For the first time, students and faculty were exposed to diverse forms of art, music, dance, and literature, fostering cultural awareness and appreciation through a collaborative in-house effort.

### Brief Bio-sketch

- After completing my Engineering in June 1975, I joined, DCM (Delhi Cloth Mills) in their first ever textile mill located in old Delhi where I was a management trainee for about 6 months. Post that I joined National Fertilizers Limited (NFL) a Government of India Undertaking in the First batch of Engineering trainees and climbed up the ladder step by step and retired as a General Manager (Materials Management) Corporate Office in 2014, enjoying more than 38 memorable years at NFL, one of the largest fertilizer companies in the country.
- Was posted at SPIC, Tuticorin and IFFCO, Kalol during my training where apart from the training I had the opportunity to tour Southern & Western India. Was actively associated with the erection and commissioning of the Panipat Fertilizer plant along with our consultants Toyo Engg Japan & EIL. Worked at various positions in Mechanical Maintenance.
- Diversified to Materials Management discipline in 1986. Headed the Materials discipline comprising of Procurement, Stores, Inventory Management & Logistics at various units of the organization at Panipat, Nangal & Bathinda up to 2006. All units had their self-contained (school, clubs and hospitals) residential townships, that provided opportunities for building relationships, growth and recreation for children and spouses. The friendships built at the units are still continuing with the same enthusiasm.
- Had the opportunity to work in Vigilance and Technical Audit departments at our Corporate Office at Noida from 2006 onwards. Attended various professional training programs including one at Bangalore on Materials Management organized by IIM and a program on Documentation examination by National Institute of Criminology, New Delhi.

### Memorable Event/Experience in DCE

- The 5 year journey in DCE was pretty interesting. Was initially admitted to the Civil Engg course but after migration of some students could switch over to Mechanical Discipline. Was a day scholar and an average student throughout except for the MCM scholarship during the first year of the course.
- Was greatly impressed by the charms of Old Delhi and the various historical places and the food joints around. Remember the taste of the delicious poori aloo and meat roti( 1 plate meat and 4 tandoori rotis, priced at Rs 3) at desi khokhas nearby. Not to forget the various movie theatres nearby and watched few iconic movies of that era, after bunking classes. Had a lot of hostellers as friends and enjoyed the day time card games and occasional drinking sessions at the hostel rooms.
- The friendships of college days are still continuing with the addition that, our spouses have also joined our gang now, and are in fact driving the get togethers from that last decade after most of us have retired!

### Brief Bio-sketch

- I have worked both onshore and offshore with ONGC. Out of my 38 years+ I worked for 28 years in projects doing basic engineering, tender formation, evaluation of bids , detailed engineering , supervision of projects both onshore and offshore. During this period, I was posted at various locations including Ahmedabad, Mumbai, and Nazira (Assam), across both field and office assignments.
- During my onshore tenure, I worked for about 2 years on installations at the Kalol Group Gathering Stations. These stations were responsible for oil and gas collection, and refining crude oil at the Central Tank Farm (CTF), Kalol. Here crude oil was required to be treated to requisite parameters before pumping to Koyali refinery, at Indian Oil , Baroda. I also worked for about 5 years in repairing the sick wells with work over rigs.
- In offshore at Mumbai High , I worked for about 2 years on offshore installations SHP and BHS in producing oil and gas and further pumping to oil tankers and refineries. BHS was the biggest offshore platform.
- Rest of my working period I worked in projects design and execution as mentioned above. During my last period of about 2 years I served as head MSG (management service group) to director(offshore) at Scope Minar, Nirman Vihar, Delhi.

### Memorable Event/ Experience in DCE

- Engifest was started by our batch mate, Praveen Ahluwalia during our time.

Spouse's Engagement  
**House Wife & Community Development**

### Brief Bio-sketch

- Sirish Jain was a distinguished mechanical engineer, accomplished sportsperson, and beloved family man. Born on November 13, 1953, he earned his Bachelor of Science in Mechanical Engineering from Delhi College of Engineering in March 1975. A star student and national-level table tennis player, he balanced academic excellence with athletic achievement from an early age.
- Professionally, he led several landmark infrastructure and industrial projects across India. From 1992 onward, he served as Director in charge of the Kota and Chechat Mining Project. Between 1978 and 1992, he oversaw major projects including the Anpara Thermal Power Project, Nirma Coal Mines, and multiple initiatives under the Delhi Development Authority (D.D.A.) through Arvind Construction Co. (P) Ltd. His early years in the field, from 1974 to 1978, were marked by the successful execution of housing projects in Delhi and Maharashtra.
- Beyond his career, Sirish Jain was a dutiful son, an active contributor to community welfare, and a man of deep values. He believed in service to society and consistently gave back to the community. Above all, he was a devoted father who raised two exceptional children—a son and a daughter—instilling in them the same principles of integrity, kindness, and excellence that he lived by.
- Sirish Jain passed away in 2024 at the age of 70, leaving behind a legacy of professional brilliance, personal strength, and heartfelt generosity.

## Sunil Tandon

ROLL NO.

Apollo International Ltd (part of  
Apollo Tyres group)**

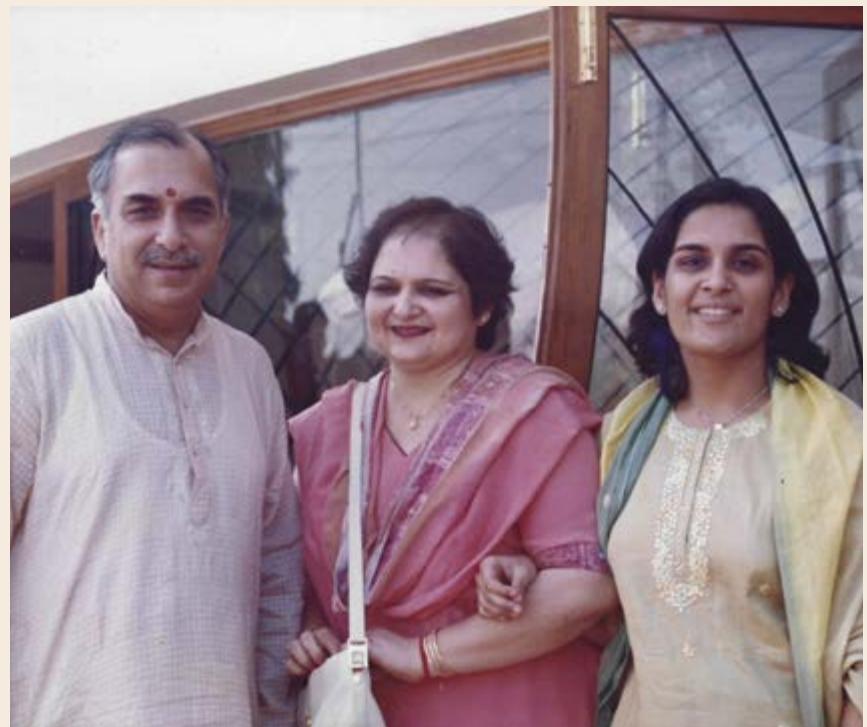

COUNTRY : **India**

Spouse's Name  
**Kishori Tandon**

Spouse's Engagement  
**Deceased**

### Brief Bio-sketch

- Sunil was President & Managing Director of Apollo International, a part of Apollo Tyres group. Having worked in different commercial roles at Apollo for about 19 years, he gained experience in International business, corporate development, new start-up ventures, technology transfer, managing companies and overseeing diverse businesses at the Board level.
- In the year 2004, Sunil's successful career was interrupted by his wife's illness, and he decided to leave Apollo. Thereafter, he started an entrepreneurial venture, which allowed him to devote more time to the family.
- After graduating as a Mechanical Engineer from Delhi College of Engineering (1975 batch), Sunil went on to acquire an MBA with top honours and a gold medal from FMS (1977 batch), University of Delhi.
- Sunil started his career with Engineers India Ltd. After a short stint at EIL, he joined Ballarpur Industries (part of Thapar Group) and worked in their Supply Chain for factories in India and projects overseas. After Ballarpur, he did a short stint with Modi Alkalies, working as an Executive Asstt. to the Vice Chairman & MD. Thereafter, he joined Apollo Tyres and held various positions in Commercial, Purchase and Exports.
- Presently, Sunil serves on the board of three companies as an Independent Director.
- Sunil has been devoting time for the past 11 years to a non-profit – Koshika Foundation – helping the needy with free surgeries to prevent blindness and save little hearts of children born with congenital heart defects.

## Anil Bhalla

ROLL NO.  
**88/70**

BATCH  
**1975**

BRANCH  
**Electronics & Communication**

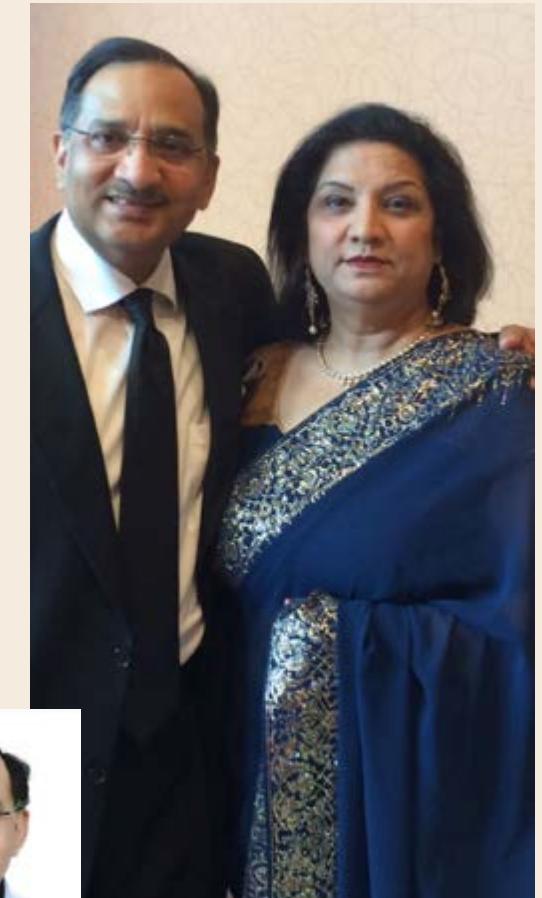

AFFILIATION  
**Retired., IEEE**

COUNTRY : **USA**

Spouse's Name  
**Kusum Bhalla**

### Brief Bio-sketch

- After graduating, I began my first job as a Production Engineer at Ahuja Radios, working on their high-end product line of amplifiers. In 1977, I joined Philips India Ltd in Mumbai. I married my beautiful wife, Kusum, in Delhi on September 29, 1979, and we have two sons together.
- In 1980, I immigrated to the United States to work as a Telecom Engineer at Missouri Pacific Railroad Company in St. Louis, Missouri. Following the company's merger with Union Pacific Railroad Company in 1985, I relocated to Omaha, Nebraska, where we established the largest privately owned telecom network in the United States.
- Union Pacific is the largest freight railroad in the U.S., operating 8,300 locomotives across 32,200 miles (51,800 km) of routes in 23 states in the western two-thirds of the country. It serves major ports and gateways, acting as a critical link in the global supply chain.
- One of my significant career achievements occurred in 1989 when I oversaw the telecom design and implementation for the establishment of a groundbreaking centralized computer-aided train dispatching center—the Harriman Train Dispatching Center—in Omaha. This center serves as the rail traffic control headquarters for Union Pacific, often referred to as “The Bunker.” It monitors trains, tracks, and switches across the United States.
- I retired in 2017 after accepting a golden parachute offer. During the COVID-19 pandemic, I earned a Nebraska state real estate license to stay active and engaged.

### Brief Bio-sketch

- From 1975 to 1977, I worked as a Trainee Engineer/Engineer in a private TV manufacturing company in Okhla, gaining hands-on experience in solid-state B/W TV manufacturing, testing, quality control, and servicing. I was later posted to Lucknow/Kanpur as a Service In-charge to support sales and after-sales service of these TVs in Uttar Pradesh.
- In 1978, I joined Electronics Trade and Technology Development Corporation Ltd (ET&T), a public sector company under the Department of Electronics, focusing on trade technology and export of Indian electronic products. I played a key role in estimating the demand for electronic components, sourcing quality parts internationally, and supporting India's TV industry, particularly in the import of BW picture tubes and color TV components after the Asian Games in the early 1980s.
- As a Marketing Manager, I conducted feasibility studies on manufacturing calculating machines and identified sources for key components. Later, as Deputy General Manager, I managed the import of magnetic tapes for IBM mainframes and video tapes for media industries. ET&T was closed in 2001 due to government privatization.
- From 2004 to 2014, I worked in the international BPO sector with Vertex UK, handling training and quality control for UK clients and later working with Airtel Enterprise Services, selling bandwidth solutions across India.

### Brief Bio-sketch

- I started my career by joining our family enterprises in the industrial sector.
- After spending five years there, I sensed potential and opportunity in the industrial gas sector and associated myself with a company engaged in industrial gas manufacturing and distribution.
- Association helped the company by expanding and enlarging the company's product profile by arranging new gases to its supply and also adding gas distribution equipment to garner to the upcoming gas supply chain and the Gas distribution equipment.
- From pursuing one product supplier to multi product gas helped the company towards better performance in the years.
- Contributing further to develop new products inline with the development
- Initiated development of the following areas of participation and initiatives taken
  - hydrogen Gas bottling station
  - Oxygen gas filling station
  - Multi Gas distribution facility at scl mandideep including helium, hydrogen
  - HCL Naini Allahabad. Multi Gas distribution system
  - Development of prototype of cryogenic storage tank assisted in design fabrication and testing of the cryo tank
  - Argon gas bottling facility
  - Gas mixture bottling facility
  - Testing and QC laboratory
- My stay of nearly 18 years in the industry provided me the knowledge and insights to different types and wide range of products and equipment.
- Contribution to the company\*
- Having worked as vice-president with the company Handled the responsibility of providing the company with a ensured product quality.

- Keeping pace with the need of the industry
- Interactions and coordination with international companies for the supply of gas- equipments and processing equipment and exploring possibilities of collaboration with them for. Joint participation for the new opportunities emerging .
- Since 1999 ventured as consulting group for emerging opportunity in the country
- In the infrastructure, ventured to explore possibilities of contributing to the upcoming projects such as GIS, oil and gas pipelines. Gas pipelines handling equipment as launchers and receiver online valves, city gas pipeline gas distribution. LPG Auto gas distribution through dispenser, metro rail traction scada system for train control. Engaged with international companies in consulting to assist supporting the group's endeavours in emerging markets.
- Provided advisory and consulting to thermax limited for their heat recovery based powerplants equipment across the country. Due to health reasons have
- Taken retirement from active work since 2017.

### Memorable Event/Experience in DCE

- Had a memorable stay of 5 yrs. At the institution making good friends and having formed lasting bond that's lasting til date. Lifetime memories engraved in the mind.
- Lucky to have spent 5 years without having any thing so significant to be remembered
- I cherish the time spent under the able
- Represented the college as part of cricket team all 5 years of my stay at the institution.

Spouse's Engagement  
**Homemaker**

### Brief Bio-sketch

- Late Mr. Rakesh Asthana, DCE's Electronics and Communications 1975 Batch, was a brilliant student and amongst the school toppers of his times, he was a very hard working and a self made man.
- He carved a niche for himself and his family at a very young age. After passing out from DCE he joined Photophone LTD. Twelve years of working there, he had a calling to start of something of his own. Few years later Asthana Telecom (P) LTD was his strength and his pillar of success. Above was a sole representative of Mitsubishi in India. From Canada to Japan, he had a very cordial relationship with his Business partners.
- He was a dedicated son, loving husband and a doting father. Fair and handsome, he was the "Amol Palekar" of his times.
- In his free time, he enjoyed music and dance. Loved playing "Hai apna dil to awara" on the self taught mouth organ, singing melodious bhajans. An avid food lover with an extreme sweet tooth.
- He was the most humble, noble and a pure soul. A spiritual person since childhood, dedicated his last 20 years of life to meditation, Guruji and Maa Kali. He wanted to see life beyond the five senses. Probably because of his pious nature, his last moments were very peaceful. He left for his heavenly abode in April 2021 due to Corona.
- He will always be cherished for the value system and legacy he has left behind - by his wife - Aditi, Son - Anupam and daughter - Ekta

### Brief Bio-sketch

- Graduated from Delhi College of Engineering (DCE) and began my career at a PVR company on GT Karnal Road, Delhi as a Service Engineer for eight months.
- Completed M.Sc. Electrical (Advanced Electronics Engineering) from DCE while working as a part-time lecturer at GB Pant Polytechnic, Okhla, and Kashmere Gate Polytechnic for about four months each.
- Qualified UPSC 1977 Exam and joined the Civil Aviation Department as a Communication Officer at ACS, Bombay, serving for two and a quarter years.
- Qualified UPSC 1978 Exam and joined DOT in July 1981, with my first posting as ADET in TEC, Janpath, working in the Radio Compatibility Cell (EMI/EMC).
- On STS promotion to DET, worked in the Satellite Communication Project Wing at Dimapur, Nagaland, for three and a half years, involved in the survey and execution of LCT Satellite Earth Stations in Nagaland, Manipur, parts of Assam, and Arunachal Pradesh.
- Transferred to DOT Headquarters at Sanchar Bhawan in July 1989, working as ADG (TP)/(L) in Radio Planning, handling procurement and allocation of radio equipment, multiplexers, antennas, towers, power plants, and batteries.
- Promoted to JAG grade and posted to MTNL Delhi as DGM (MM) for two and a half years, overseeing procurement and allocation of L&W, A&P, UG cables, and labor contracts.
- Transferred to MTNL East Delhi as DGM (Maintenance) at Idgah, responsible for the telecom network's indoor and outdoor operations.
- Worked briefly as DGM (Business Communication) at KL Bhawan for four months, handling leased circuits in MTNL Delhi.
- Transferred to MTNL Corporate Office as DGM (MM) for three and a half years, managing procurement for MTNL Delhi and Mumbai units.
- Promoted to SAG grade and posted as GMTD, Bikaner (Rajasthan), in May 2000, serving for two and a quarter years, then transferred to Udaipur as GMTD for five years.
- Posted as GMTD, Mehsana (Gujarat) for three and a half years, managing telecom assets and installations.
- Promoted to Senior GM at BSNL Headquarters, New Delhi, first in the Regulation Cell, then transferred to MM Cell as SrGM/PGM, overseeing procurement for BSNL field formations for over three years.
- Superannuated on 30th June 2014 as Principal General Manager (Additional Secretary, Government of India).

### Memorable Event/ Experience in DCE

- Ragging was prevalent during college days. On my first day at DCE in 1970, I managed to evade ragging with the help of a senior from my locality. On the second day, I was caught by seniors who asked me to follow their instructions. However, after learning about my modest family background, one senior motivated me, saying, "You will be busy for the next five years, complete your engineering, get a good job, and support your family." This unique motivational ragging left a lasting impact on me.
- During third-semester finals in 1973, the cold was extreme, making it difficult to write comfortably. Principal R.C. Narayan ji ordered a one-hour break, allowing us to warm up with tea/coffee in the canteen before resuming the exam—an exceptional humanitarian gesture.
- Mass-cuts were common for stress relief or leisure activities. Once, we skipped class to watch the movie 'Bobby' in Faridabad before its Delhi release. Another mass-cut incident occurred during Assistant Professor Subba Rao's 'Electric Motors' class. The next day, he calmly stated that he considered the skipped syllabus covered and continued with new topics. This silent yet powerful message made us realize our mistake, and mass-cuts were never repeated in his class.

- Held Board Membership positions with Management Consultancy Board, A F Ferguson & Co., Deloitte Touche Tohmatsu India Pvt Ltd. and Deloitte & Touche Consulting India Pvt Ltd

### Memorable Event/Experience in DCE

#### Commuting to College

Those were the times with no mobile phones and reliance on Delhi Transport Undertaking buses for commuting to college. While returning from college on a winter evening in bus (it was 3rd Dec 1971), suddenly there was a complete blackout all around. With air siren wailing frequently, the bus came to a complete halt on New Rohtak Road. Soon we came to know that war with Pakistan had started, as the Pakistan Air Force had launched a surprise attack on some of our airbases and that is why there was a complete blackout. All around one could see people guessing the implications of this war but no one seemed to be worried about how one will reach home. They seemed to exude confidence of teaching a lesson to the enemy and ever ready to face any inconvenience to help our nation defeat the enemy. There was a mixed feeling and expression of strength, courage, patriotism on everyone's face all around. After some time, the air sirens stopped, and the buses started moving at a very low pace with dim lights on. One reached home quite late in the evening, with a feeling as if one has just returned from the war front. The images of that bus journey returning from college got etched in one's memory and left unforgettable experiences.

### Brief Bio-sketch

I had started doing my PhD under professor, Dr S.C. Kapoor straight after completing my engineering degree in 1975 but unfortunately, due to emergency imposed during that period, it got disrupted and Dr Kapoor also left for Germany. I joined our family business, Trading Engineers International Pvt Ltd which was into Turnkey Projects for Pumping Stations and Diesel Power Stations. In 1989, I began a new venture into manufacturing of Electrical Home Appliances in which packaging business was later added and is now being looked after by my daughter. In 1991, I incorporated a new company as an ancillary to Hero Honda Motors in the name of Napino Auto & Electronics LtdIn 1991, Electrical and Electronic Products for the Automobile industry. This business has been expanded to several plants all over India with 5000 plus employees. Our customers include Hero MotoCorp, Honda, Suzuki, Yamaha, TVS, Bajaj and most of the EV manufacturers. We have collaborations with Shindengen, Japan, Continental, Vitesco, Germany, Domino, Italy and many others. I am still active in my business as the Chairman & Managing Director of the company.

### Memorable Event/Experience in DCE

I excelled in Workshop, Project and Training. Got court arrested to get our college opened. Did several memorable music shows in the college auditorium. Being the President of Music society in the final year, played my part in the initialisation of "Engifest".

- Working since last 50 years in India, Africa, middle & far east specializing in design, supervision, maintenance, health checkup, repair, retrofitting and rehabilitation of all types of Bridge structures, Highways and Traffic & Transport Planning.
- From 1975 to 1990 worked in Gammon Group for preparation of detailed design and feasibility reports for almost all types of bridge structure in India and abroad.
- From 1990 to 1992 worked as Bridge Advisor to Govt. of Mozambique, Africa for repairs and rehabilitation of bridges destroyed in civil war in the country and to train the local engineers.
- From 1992 to 1994 worked in Ital Consult, an Italian firm as Deputy RE on Dubai-Abu Dhabi Expressway and subsequently as head of bridges in their design office, Dubai
- From 1994-1997 worked in SweRoad, a Swedish firm as a member Bridge expert of General Consultant's team to assist Govt. of Mozambique for Roads and Costal Shipping Project (World Bank funded).
- From 1997-1998 worked in SweRoad for short term bridge advisor to Govt. of People's Republic of Laos for preparation of Inspection and maintenance manual of bridges.
- From 1998 onwards Functioning in the name and style of Engineering and Planning Consultants for providing consultancy services in Infrastructure projects related to Bridges, Highways, Health Checkup of structures and Traffic & Transportation.
- Also working as short time consultant to World Bank and Bridge Expert with NHAI. Member of various committees of professional bodies in the related field.

### Memorable Event/Experience in DCE

- There are many memorable experiences/event during my stay in the campus at Kashmiri Gate as well staying in the hostel throughout. Going for tea during nights in exam days in front of Ritz Cinema eating bread pakoras in summer and boiled eggs in winter. Having Milk and Jalebi, Gajjar ka Halwa at Mithan Lal Sweet Shop. Having dinner on Sundays at Oberoi Dhaba when hostel mess was off. Going for movies on Friday night show at Ritz and Minerva and even walking down to four cinema halls at Chandni Chowk & Golcha at Darya Ganj. Remembering one very interesting experience of a cracker exploding every night at a particular time in the toilet of East Hostel During Diwali days. Mr Atri Administrative Officer and Prof J R Verma Warden who were staying in the accommodation on one part of East Hostel could not catch the student. Survey Camps, NCC camps were always fun.
- So many memories which we always relish and narrate our children and grand children. Looking forward to Golden Jubilee Celebrations when we will go back to the memories lane to relate with time spent in the campus and hostel of our prestigious college.

## **Brief Bio-sketch**

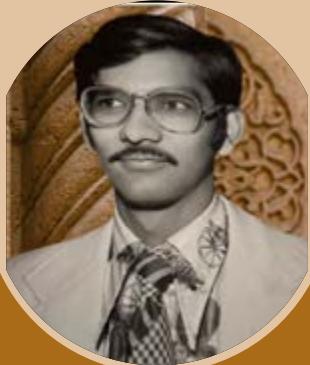

- MTech IIT Delhi in Construction Management and Building Science. Worked in CPWD through UPSC Central Engineering Services. After retirement in 2014, worked as consultant in Civil Engineering and Arbitrator till 2022. Now settled in Gurgaon.

## **Memorable Event/Experience in DCE**

- Once while waiting(our roll numbers being the last) for Soil Mechanics Practical viva-voce four of us went to watch 12-3 movie show at Ritz cinema. When we returned, exam was over and Prof N.M.Patel and the external were furious but finally relented to take our Viva-voce. The external asked us simple questions. But as our heads were still reeling from the climax fight scenes of the movie, our standard answer was "don't know sir". The external was shocked and said, "Are you from earth or from some other planet?". Needless to say that he gave us a Fail and we got our only supplementary in college.

## **Brief Bio-sketch**

- Joined Indian Army as permanent commissioned officer and served in Corps of Engineers for 31 Years (1976- 2007) in various appointments including Border Roads Organization.
- Did ME in Environmental Engineering from Roorkee IIT and MBA from IIM Bangalore. Served with Cummins India Ltd for six years as Head Real Estate (2007-2013).

## Vijender Pal Jain

# ALUMNI AFFAIRS DELHI TECHNOLOGICAL UNIVERSITY

Established by the Govt. of NCT of Delhi vide Act 6 of 2009  
(Formerly Delhi College of Engineering)

Shahbad Daulatpur, Bawana Road, Delhi-110042

Website : [www.dtu.ac.in](http://www.dtu.ac.in)

The **HOECOMING MEET, 2025** has given us innumerable golden moments to smile, cherish and preserve. A treasure trove of memories has been unboxed and the DTU fraternity shall hold it close to their hearts forever. It has been an absolute honour to host our DCE/DTU alumni on the campus premises. This Coffee Table Book is our way to document our Alumni's journey of life as well as efforts towards creating an identity for themselves and their alma mater. We also value our alumni's enriching contributions towards making DTU a premier academic institution as we take huge strides towards becoming a world-class University. DTU takes immense pride in preserving these valuable memories for posterity to know, learn and emerge wiser with these shared moments of awe and glory.
