### MESSAGE FROM THE HON'BLE VICE CHANCELLOR

It is with great joy and immense pride that I share that Delhi Technological University is organizing the Homecoming Meet, 2025 on 11<sup>th</sup> April, 2025 to celebrate the Diamond, Golden and Silver Jubilee for the Class of 1965, Class of 1975 and Class of 2000, respectively.

This special gathering is not only a chance to relive cherished memories but also a testament to the enduring connection between our university and its alumni. More than just a reunion, it is a celebration of the lifelong bonds that unite us and a platform to forge new relationships that will further strengthen our DTU-DCE fraternity.

Our university has been the nurturing ground where the aspirations of all our alumni first took root, where their dreams were shaped and set forth on the path to becoming extraordinary realities. It was here that they learned to persevere, to strive, and to script the first pages of their inspiring journeys. It fills me with immense pride to see our alumni carrying forward the values of determination, excellence, and integrity across the world. I am proud to share that our alumni are excelling as top engineers, distinguished academicians, skilled managers, influential leaders, renowned policymakers, successful innovators, and entrepreneurs both in India and abroad. Their unparalleled achievements will always remain a source of great inspiration to the generations to come.

I also take this opportunity to express my heartfelt gratitude for all our alumni around the world who have continued to contribute towards the development and advancement of their alma mater with their open hearted contributions. Their support for our university - through endowment funds, scholarship funds, intellectual engagement, and mentorship - has been both invaluable and inspiring. I assure our alumni and stakeholders that, with their steadfast support, the University community continues to progress, inspired by the legacy of their achievements.

On this momentous occasion of the Homecoming Meet 2025, I wish to congratulate the entire DTU-DCE family. I am sure that this Homecoming Meet will be a joyous celebration of our shared heritage and an opportunity to reconnect, reminisce, and strengthen the bonds that tie us together.

### MESSAGE FROM THE REGISTRAR

I am pleased to know that Delhi Technological University will host the Homecoming Meet 2025 on April 11, 2025, to celebrate the Diamond, Golden, and Silver Jubilee milestones for the Classes of 1965, 1975, and 2000, respectively. I am sure that this event will be an occasion to relive old memories and to create many more unforgettable memories.

The most transformative phase in an individual's life occurs during their foundational education after school. This is when students evolve into professionals, gaining academic excellence, intellectual strength, and moral integrity. It is both a pivotal and cherished period in one's journey. I take great pride in knowing that our university has nurtured countless successful alumni who spent their formative years within our classrooms.

Alumni are the true legacy of an institution, reflecting its academic excellence and core values. We take immense pride in our graduates, whose remarkable achievements have brought global recognition to our University. Beyond professional excellence, they have made a lasting impact on society, leading with vision and integrity in their respective fields.

I also take this opportunity to thank all our alumni for their generous contributions through their time, efforts, expertise and resources. Their contributions through all these years have led to a significant growth of our institution. DTU is committed to fostering meaningful relationships and strengthening them to drive the University's comprehensive success.

I congratulate the entire DTU-DCE family on occasion of Homecoming 2025 and wish that this event turns out to be joyful and fulfilling for everyone. I look forward to having you all at the Homecoming Meet.

### MESSAGE FROM THE DEAN ALUMNI AFFAIRS

I am pleased to share that Delhi Technological University (formerly DCE) is organizing the Homecoming Meet 2025 for its Diamond, Golden and Silver Jubilee batches. This get-together will offer a special platform for alumni to reunite with their peers, relive fond memories, and strengthen their lifelong association with the university. It will also serve as an occasion to foster new connections and celebrate the enduring spirit of the DTU-DCE community.

College life is often considered one of the most cherished phases of our journey, with memories that last a lifetime. It is a time when friendships are built, knowledge is gained, and experiences shape our future. We take immense pride in the fact that the roots of our world-renowned alumni were nurtured within the halls and classrooms of our university, where their journey of excellence first began.

DTU is immensely proud of all our alumni, whose remarkable contributions have left an indelible mark on the world and have earned recognition on both national and global platforms. We are proud of their impactful contributions in diverse fields. Their contributions have been and will always be a source of great inspiration for our entire community.

DTU is privileged to have a community of dedicated and generous alumni who, over the years, have remained deeply connected to their alma mater. Their unwavering support—through endowment funds, student mentorship, and various other contributions—has been instrumental in strengthening the University's foundation and fostering its continued growth. I take this opportunity to express my gratitude to all our alumni who have been a strong pillar of support for the University.

I am confident that this Homecoming Meet will be a unique platform for meaningful interactions between our esteemed alumni and the DTU-DCE community. I extend my best wishes to all for its success.

### MESSAGE FROM THE ASSOCIATE DEAN ALUMNI AFFAIRS

I am delighted to share that Delhi Technological University (formerly DCE) is hosting the Homecoming Meet 2025 to honour the Class of 1965, Class of 1975 and Class of 2000 who are celebrating their Diamond, Golden, and Silver Jubilee this year. This event will be a wonderful opportunity for our alumni to reminisce about their time at the university, build new relationships and celebrate the rich legacy of the DTU-DCE community.

The years spent at college are among the most cherished chapters of one's life, leaving an imprint that time cannot erase. Though we move beyond the walls of our classrooms, the lessons, friendships, and experiences remain deeply ingrained in our hearts. Our professors, peers, and the countless memories shaped within our alma mater continue to inspire us long after we have left. This Homecoming Meet presents a special opportunity to reconnect, reminisce, and relive those unforgettable moments.

Delhi Technological University (formerly Delhi College of Engineering) takes immense pride in its alumni, who have excelled in diverse fields and hold prestigious positions worldwide. Their remarkable achievements have not only brought great honour to the institution but have also set a benchmark for future generations. We are truly grateful for their continued support through endowment funds, student fellowships, and numerous other contributions, which have played a vital role in strengthening the university's legacy and fostering its growth.

This Homecoming shall be an occasion to celebrate and reinforce the lifelong bond that the University shares with them. It shall be a celebration of the enduring connection between the university and its graduates, bringing together generations of the DTU family under one roof. This special gathering will not only rekindle fond memories but also provide a platform for meaningful interactions, new collaborations, and shared nostalgia.

I am certain that this event will be a joyous and unforgettable experience for the entire DTU alumni community. I look forward to welcoming all the alumni at the Homecoming Meet-2025.

(Prof. Yasha Hasija)

# About *Delhi Technological University*

Delhi Technological University has been a beacon of academic excellence and innovation for the past 83 years. The university has garnered recognition for being an eminent institution, known for its academic research and entrepreneurial excellence in a plethora of fields. Delhi Technological University has adopted the principles of knowledge, critical thinking, creativity and innovation at the core of its education policy, all while embracing integration, access and inclusivity. With an aim to provide a holistic education, conventional classroom teaching has been merged with innovative methods fostering curiosity and academic prowess in our students. From its inception as Delhi Polytechnic to its present-day identity as Delhi Technological University, the university has always championed the cause of providing students with a high-quality education that allows them to flourish in their chosen domains. Along with imparting knowledge, the University has achieved pioneering advances in undertaking creative and internationally relevant research and innovation over the years.

With 83 years of its long-established tradition of excellence in engineering & technology education, research and innovations, Delhi College of Engineering, (initially established with the name – Delhi Polytechnic) came into existence in the year 1941 to cater the needs of Indian industries for trained technical manpower with practical experience and sound theoretical knowledge. The institution was set up at historic Kashmere Gate campus as a follow up of the Wood and Abbott Committee of 1938. It comprised of a multi-disciplinary and multi-level institution offering wide ranging programmes in engineering, technology, arts and sculpture, architecture, pharmacy and commerce. In 1952 the college was affiliated with University of Delhi and started formal Degree level Programmes. The department of Architecture later became the School of Planning and Architecture (SPA), now a Deemed University and Institution of National importance. The department of Arts and Sculpture became College of Arts and the departments of Chemical Technology and Textile Technology were shifted out en-block to mark beginning of the IIT Delhi at its new campus at Hauz Khas. Further expanding its academic reach, the Department of Pharmacy, evolved into the College of Pharmacy under the Directorate of Training and Technical Education, Delhi. The department of commerce was later abolished and the faculty of management studies of the University of Delhi was established. Delhi College of Engineering is thus the mother institution of a number of national projects including IITD, SPA, College of Arts and even the famous FMS.

After the reconstitution of the Delhi College of Engineering by the Government of NCT of Delhi in 2009, by Act 6 of 2009, passed by the

assembly of the NCT of Delhi, DCE became Delhi Technological University. It is a non-affiliating, teaching and research University, committed to achieve excellence in Engineering, Science, Technology, Management and allied areas. Over its rich history of over 83 years, the institution has been serving the nation and the global community since its inception in 1941, by providing trained manpower of highest quality in the field of engineering and technology, and is globally well known for its outstanding education, research and innovations.

DTU remains committed to cultivating a culture where scientific research fuels technological advancement and technological ingenuity enriches scientific exploration so that science and engineering seamlessly converge. The University is dedicated to nurturing innovation by promoting industrially relevant projects, technology incubation, and research-driven education with the help of a dedicated Incubation and Innovation Foundation. With a strategic focus on cutting-edge research and development, DTU continues to expand its footprint in pioneering innovations, interdisciplinary collaboration, and entrepreneurial ventures.

Upholding and uplifting its long and remarkable history in education and research, the University currently offers various inter-disciplinary and industry relevant programs in Science, Engineering, Management & Allied areas at the undergraduate, postgraduate and doctoral level. The University has established a strong academia-industry interface and has collaborations with reputed research organizations, industries, and premier institutions. Many alumni of the institute have achieved remarkable success both in India and abroad, bringing honour to the name of the University. Their contributions reflect the strong foundation and values instilled during their time at the University. DTU places great emphasis on nurturing national character, self-confidence, and leadership among its students and fosters an ecosystem that encourages creativity, imagination, and innovation. The University is committed to developing not only skilled professionals but also responsible, forward-thinking leaders. With its rich legacy and progressive outlook, DTU continues to empower students to make a lasting impact and stay at the forefront of global academic excellence.

BRANCH  
**Mechanical Engineering**

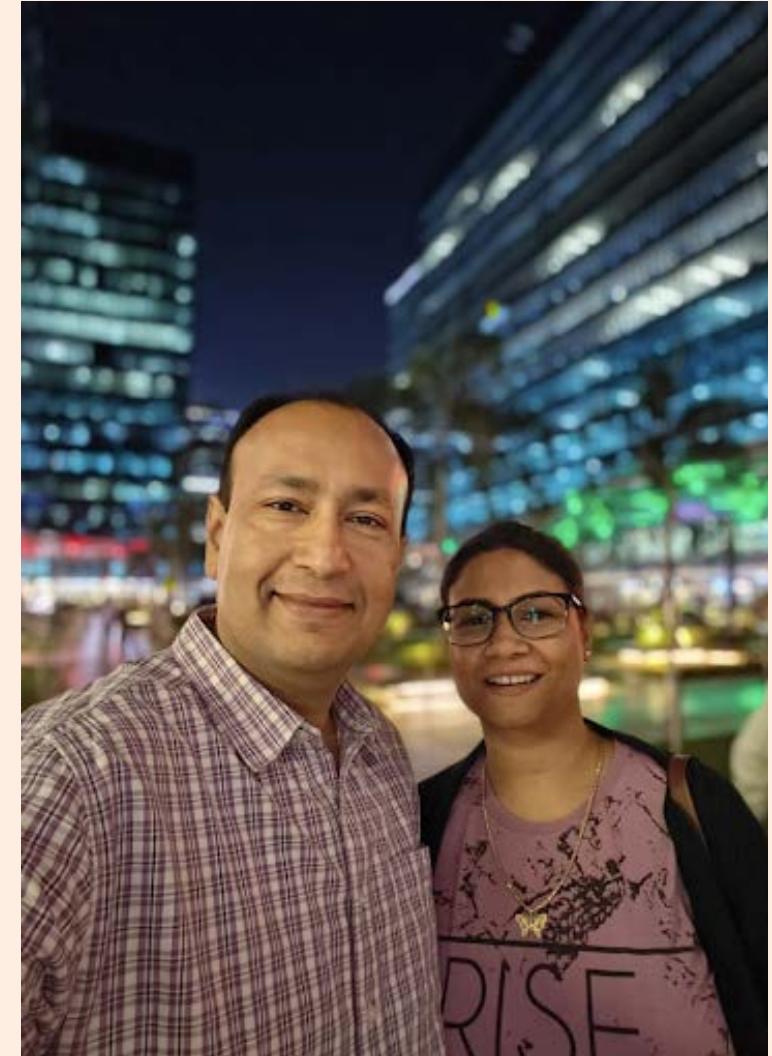

PRESENT AFFILIATION  
**Product Manager, Oracle**

COUNTRY  
**India**

Spouse's Name  
**Ankita Sengupta**

### Brief Bio-sketch

- My association with Delhi College of Engineering started in the year 1996 at the new campus. The four years of learning, fun and making new friendships emerged as one of the best periods of my life as I completed my bachelor's degree in mechanical engineering in 2000. I also hold a post-graduation degree in Finance and Operations management from SP Jain Institute of Management and Research in 2004.
- I am currently working at Oracle India in the Product Management team for their cloud-based enterprise applications, specializing in the supply chain domain space.
- Prior to that, I gained valuable experience at Larsen & Toubro and Infosys in terms of implementing enterprise applications, transformation initiatives and detailed engineering.
- Outside of work, I enjoy cooking and exploring new places, combining a love for travel with a passion for diverse culinary experiences.

Civil Engineering

PRESENT AFFILIATION  
COO, ElasticRun

COUNTRY : India

## Brief Bio-sketch

- Spent a lot of time in technical sector working to solve problems across logistics, retail and FMCG.
- Cofounded a company called ElasticRun in 2016 where I function as the COO presently.

## Memorable Event/Experience in DCE

- It's hard to single out just one experience when every day of those four years was unforgettable!
- We were among the first few batches to join the new campus in Bawana and were initially accommodated in two- and three-room staff apartments until our hostels were ready. Over those four years, we watched the campus infrastructure take shape before our eyes—the academic blocks, library, hostels, and more.
- From endless cricket matches everywhere we stayed (including the living rooms of the staff quarters) to Spic Macay nights, hostel parties, inter-college fests, reprimands from the warden, and those long walks from the hostels to the bus stand in Rohini Sector 16. I could go on and on...

## Achin Puri

BATCH  
2000

BRANCH  
**Mechanical Engineering**

PRESENT AFFILIATION  
**Self Employed, Catalyze**

COUNTRY : **India**

### Brief Bio-sketch

- As a seasoned professional turned life coach, I bring over two decades of diverse experience to the table. My journey began with a degree in engineering in 2000, followed by a five-year stint at Infosys, where I worked in both India and the US.
- I furthered my education with an MBA in finance and marketing from the Indian School of Business (ISB) in 2006. Post-MBA, I worked with prominent consulting firms like ECS and Accenture, and later held key roles as a program manager at Google and Ola Cabs. I also served as the head of strategy for a manufacturing firm.
- The culmination of my corporate experience led me to launch my own startup in the life coaching space. This venture sparked a passion within me to help others achieve their goals and improve their overall well-being.
- Today, as a life coach, I leverage my expertise to empower individuals to optimize their careers, relationships, and lives. My coaching philosophy is centered around efficiency, effectiveness, and personalized growth. I've had the privilege of working with numerous clients, helping them overcome obstacles and reach their full potential.
- Through my coaching practice, I aim to make a meaningful impact on people's lives, fostering a community of high-achievers who inspire and support one another.

### Brief Bio-sketch

- Shri A. Sundaresan, IRSEE, is currently the Chief Electrical Engineer of Construction at Southern Railway. A distinguished alumnus of DCE, he was among the top performers during his undergraduate studies and graduated as the topper of the 2000 batch of the Indian Railway Service of Electrical Engineers (IRSEE), having been selected through the Engineering Services Examination conducted by UPSC.
- In 2001, he earned a Post Graduate Diploma in Management Systems from IIT Delhi and later completed his M.Tech in Power Electronics and Power Systems from IIT Bombay in 2019.
- During his officer training, Mr. Sundaresan received several prestigious accolades, including the Director General's Medal for Best Probationary Officer at the National Academy of Indian Railways in Vadodara and the S. Sarath Medal for Best Communication Skills from the Indian Railway Institute of Electrical Engineers in Nasik Road. He has also undergone Advanced Management training at INSEAD, Singapore, and ICLIF, Malaysia, as well as specialized training in Heavy Haul Traction at Beijing Jiaotong University, China.
- Throughout his career in Indian Railways, the lifeline of the nation, Mr. Sundaresan has played a pivotal role in electric locomotive maintenance, crew operations, and the creation and management of traction distribution assets. He began his career as an Assistant Divisional Electrical Engineer and went on to serve in various key positions, including Divisional and Senior Divisional Electrical Engineer in the Vadodara, Ratlam, Mumbai, and Ahmedabad divisions of Western Railway, where he undertook critical roles in traction applications.
- In recognition of his exceptional service, he has received the General Manager's Award twice. His technical research paper on bearing currents in locomotives was well received by the IEEE in Michigan, USA.
- After being elevated to the Senior Administrative Grade, equivalent to Joint Secretary to the Government of India, he joined Southern Railway in 2020. Since then, he has been instrumental in achieving over 2,000 kilometers of railway electrification and continues to play a crucial role in the infrastructure development of Indian Railways.

### Memorable Event/Experience in DCE

- We were the first batch at the Badli Campus and have witnessed its growth from strength to strength. I remember the early days of living in Type IV quarters and attending makeshift classrooms, before transitioning to the spacious and beautiful Sir C.V. Raman Hostel and the marvelous academic block. These memories are etched everywhere. DCE, my alma mater, not only provided me with a solid academic foundation but also played a crucial role in my personality development. I vividly recall the Santoor performance organized by Spic Macay with the late Pt. Shiv Kumar Sharma, which kindled my love for music.

## Prithvish (Prit) Chatterjee

BATCH  
2000

BRANCH  
Mechanical Engineering

PRESENT AFFILIATION  
Senior Director, Platforms  
- Digital Marketing &  
Subscriptions, NVIDIA

COUNTRY : United States

### Brief Bio-sketch

- Prithvish (Prit) Chatterjee is a seasoned product and platform leader with over two decades of experience spanning digital marketing, AI, ecommerce, subscriptions, and omnichannel retail. Currently serving as Senior Director at NVIDIA, Prit leads strategic digital platform initiatives focused on marketing automation, AI, personalization, and subscription growth. His work combines a deep understanding of technology and consumer behavior with strong execution capabilities.
- An alumnus of Delhi College of Engineering (Class of 2000, Mechanical), Prit was actively involved in technical societies such as ASHRAE, and helped lead MACH, DCE's flagship seminar for mechanical engineers, as Sponsorship & PR Coordinator. He later earned his MBA from the Indian Institute of Management, Ahmedabad, where he continued to blend strategic insight with hands-on problem-solving.
- Prit brings a unique mix of business vision and technical fluency, having worked across startups and Fortune 500 companies. His product leadership has consistently focused on delivering customer-centric innovations, powered by data, design thinking, and collaborative execution.

## Nikhil Jain

ROLL NO.  
**96/EE/174**

BATCH  
**2000**

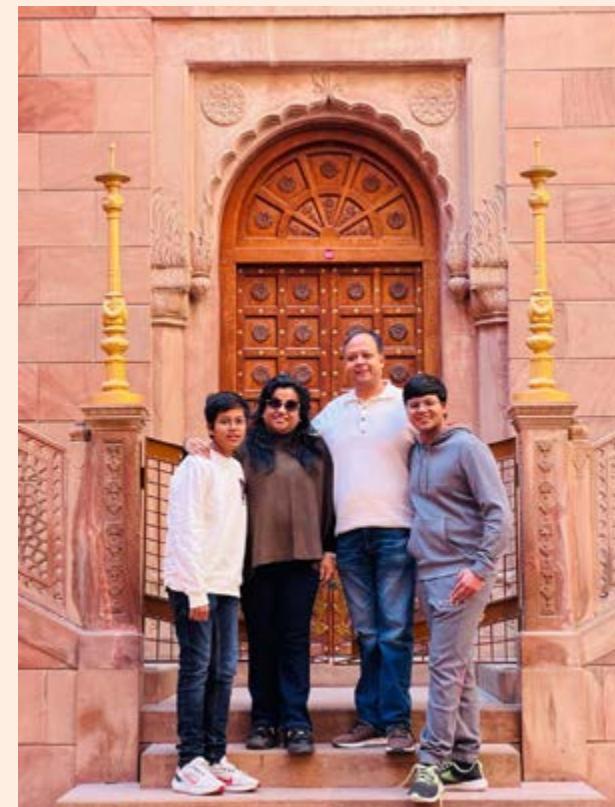

BRANCH  
**Electrical Engineering**

PRESENT AFFILIATION  
**Founder Director, Alpro Industries**

COUNTRY : **India**

### Brief Bio-sketch

- I am an Electrical Engineering graduate from Delhi College of Engineering (Class of 2000) and later pursued an MBA from Management Development Institute, Gurgaon (Class of 2002). My years at DCE were truly special—filled with invaluable learning, lifelong friendships, and memories that continue to hold a special place in my heart.
- After my MBA, I worked briefly as an employee and then as a consultant for CSC India Pvt Ltd (then the world's 3rd largest IT & Data Services company), handling their real estate and infrastructure needs for the APAC region. Eventually, I transitioned into entrepreneurship, focusing on the building materials and sustainability sectors.

- Currently, I am actively involved with Alpro Industries, where we strive to provide innovative and high-quality uPVC and aluminium doors, windows and facades for modern infrastructure. Additionally, as the Director of GoGreen Enterprises, I am engaged in advancing Recovered Carbon Black (rCB) and promoting sustainable manufacturing practices by recycling end of life tyres.
- Beyond business, I am passionate about education and serve as a Trustee of The Wisdom Global School, working to create meaningful learning experiences for the next generation.
- While the years have added responsibilities, the memories of DCE remain fresh—hostel nights, campus events, chai breaks, and, most importantly, the friendships that have stood the test of time. I look forward to reconnecting with old friends, reliving those golden moments, and celebrating 25 years of shared journeys.

BRANCH  
**B.E. Mechanical Engineering**

PRESENT AFFILIATION  
**AVP, Silverskills Pvt. Limited**

COUNTRY : **India**

Spouse's Name  
**Deepti Sareen**

### Brief Bio-sketch

- I began my career in IT with IIS Infotech Limited, which later became Xansa Technologies and is now Steria. Over five years, I progressed from a Software Engineer to a Senior Software Engineer, working as a Systems Analyst.
- In 2006, I joined Tech Mahindra, where I spent over 15 years in management and senior management roles. In 2021, I moved to Wipro as an AI Product Manager, working on cutting-edge AI solutions. Currently, I serve as the Head of Digital Transformation at Silverskills Pvt. Ltd., where I lead the transformation of existing processes by leveraging Generative AI, Agentic AI, and other emerging technologies.

### Key Achievements

Throughout my career, I have been fortunate to receive several recognitions, including:

- Best Project Manager
- Rising Star Award
- Employee of the Year

### Memorable Event/Experience in DCE

- DCE was not just about academics; it was an era filled with unforgettable moments. Some memories I still cherish include:
  - Playing cricket and hitting the best bowlers for sixes
  - The excitement of Engifest and the nervousness before vivas and exams
  - Experiencing the best of both worlds as a Monday-to-Friday hosteller
  - Walking back 5 km from a theater at Kingsway Camp after watching a movie, only to hitch a ride back to campus on the back of a truck—an adventure to remember!
  - A spooky hostel incident where a student was performing black magic rituals, scaring everyone to the point that we all ran home at night. Now, looking back, it brings a good laugh!

### Message for Batchmates

- It's hard to believe that 25 years have passed since we left DCE. Life has been a mix of highs and lows, achievements and missed opportunities. Looking back, I see the many things I have accomplished, yet I also recognize paths that could have led to different outcomes.
- But in the end, everything balances out. Life is a blend of good and bad, right and wrong, but it all neutralizes eventually. So don't stress—stay happy, let life unfold naturally. Remember, we are here for a short time. Do your best, dedicate it to God, and trust that you are walking the path He has set for you. This belief makes life both easier and more fulfilling.
- Looking forward to reconnecting with all of you and reliving those golden years once again!

## Devender Gupta

ROLL NO.

Spouse's Engagement  
**Geneticist**

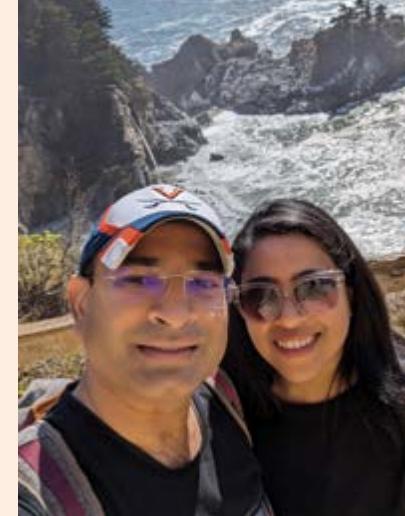

### Brief Bio-sketch

Shankha Basu is a seasoned entrepreneur and technology leader with a diverse background in business operations and product development. He is the Founder and Chief Operating Officer of Benepower, a company building a marketplace for healthcare services and products. His entrepreneurial journey includes co-founding Medxoom, where he played a pivotal role leading to its successful exit. His professional experience encompasses technical and product leadership positions at organizations such as Altisource, SWIFT and TCS, focusing on technology, analytics, and innovative solutions for financial markets. Basu holds a Master's degree in Systems Engineering from the University of Virginia and a Bachelor's degree in Electrical Engineering from Delhi College of Engineering.

### Memorable Event/Experience in DCE

DCE was a transformative experience that may have forever altered the course of my life. Beyond academics, my involvement with the IEE/IEEE Student Branch and TROIKA remains one of my most cherished memories. Running an entire organization and managing a large-scale event at just 20 years old was an invaluable experience—it instilled in me the confidence that later fueled my entrepreneurial ventures.

DCE also gifted me a lifelong network of friends who continue to be my trusted sounding board to this day. It was here that I undertook ambitious technical projects, including a target tracking system—a great learning experience that taught me how to experiment and build things. Another defining aspect of my time at DCE was the industrial training at DRDO, which deepened my passion for science and research, ultimately inspiring me to pursue graduate studies.

## Anish Arora

### Brief Bio-sketch

- With a strong foundation in Yoga and Meditation, I have successfully managed diverse roles in Program Management, Consulting, and Industry operations across Retail, Consumer Goods, Manufacturing, and the Social Sector. My expertise spans Process & IT Consulting, Project Management, and Business Development, enabling organizations to streamline operations, enhance efficiency, and drive sustainable growth.
- I have provided leadership in key areas, including Supply Chain Management, Store Automation, Order Management, Inventory Management & Accounting, Production Planning, and Product & Process Development. My ability to optimize workflows, implement innovative solutions, and drive operational excellence has led to significant business transformation across various industries.
- With extensive global experience, I have led multiple client-facing engagements with industry leaders in the USA and the UK. My role has involved ensuring seamless collaboration, strategic execution, and long-term value creation through effective stakeholder management and data-driven decision-making.
- Beyond my professional expertise, I am proficient in both Vedic and Krishnamurti Paddhati (KP) Astrology. I offer insights and guidance to individuals seeking clarity in career, relationships, health, and personal growth.

### Memorable Event/Experience in DCE

There are countless cherished memories—watching movies at PVR, eating out, group outings, and those rides on DTC buses. Playing cricket in the hostel, breaking into random dance parties in the hostel compound, and pleading with professors for attendance were all part of the journey. The last-minute rush to complete assignments while still hoping for deadline extensions added to the thrill.

The deafening cheers during unexpected power outages at night, reading weekly zodiac predictions in The Times of India during exams, and wishing for easy question papers. The unscheduled pre-Holi celebrations that turned the entire campus into a riot of colors, midnight Maggie parties in hostel rooms and sneaking into lectures just for attendance.

From bunking morning classes to sleep in, pulling all-nighters for exams, to random bike trips without a destination—filled with laughter, friendship, and memories.

## Praveen Sharma

ROLL NO.

PRESENT AFFILIATION  
**Commander Works Engineer,  
Military Engineer Services**

COUNTRY : **India**

Spouse's Name  
**Harjeet Kaur**

Spouse's Engagement  
**Teacher**

### Brief Bio-sketch

- I started my professional journey from Maruti Udyog Limited as Assistant Manager. Thereafter, I joined Military Engineer Services (MES) through UPSC. I joined as Assistant Executive Engineer and has worked at various locations in the country from the remotest places to bustling metros. MES plans and build infrastructure and provides maintenance services to the Defence forces i.e., Army, Air Force, Navy, DRDO and Coast Guard. I had the fortune of serving the nation by working closely with the Defence forces, understanding their varied needs and planning and executing critical infrastructure projects. The task is multidimensional and provides both challenges and satisfaction. The job is transferable and gives an opportunity to explore beautiful places, landscapes, flora and fauna, people, their language, traditions and culture. I have been given a few awards also for meritorious service in the department. MES has given me opportunity to enhance my technical acumen and education. MES sponsored my MTech in Thermal Engineering from IIT Delhi. Presently, I am working as Commander Works Engineer with five army locations under my jurisdiction.

**BRANCH  
Electrical Engineering**

**PRESENT AFFILIATION**

**Worked as a Database Administrator,  
Now working as an Educator, Last  
Organisation - TCS, Present - Educator  
in school**

**COUNTRY : India**

**Spouse's Name  
G. Ramasubramani**

**Spouse's Engagement  
CTO, Portea Medical Private Limited**

### Brief Bio-sketch

- I began my professional journey at Tata Consultancy Services (TCS), where I spent seven enriching years working across Chennai, Delhi, and Bangalore. During my tenure, I held various roles, including working on TCS's in-house product, Object-Oriented Analysis and Design (OOAD), and serving as a database administrator for UDB DB2 databases. In 2007, I chose to take a three-year sabbatical to focus on motherhood.
- Following this break, I discovered my passion for teaching and transitioned into education, specializing in mathematics for Grades 10 to 12. Over the years, I have successfully guided students to achieve excellent results in board examinations, fostering a love for numbers and logical reasoning.
- Driven by a desire to expand my analytical skills, I recently completed a comprehensive Data Science and Machine Learning program from Great Lakes Institute of Management in collaboration with The University of Texas at Austin. I am now eager to leverage my technical expertise, teaching experience, and newly acquired data science skills in new and challenging opportunities.

### Memorable Event/Experience in DCE

There are a lot of memorable experiences I had in DCE. One of the most memorable ones is my stay in the hostel during exams as I was a day scholar. I used to enjoy my stay with my besties Prajna and Neelima in their rooms. My infinite gossip sessions with Prajna, Neelima, Manju, Yashika and Vandana in the midst of our studies were something I reminiscence even today. I liked the TV sessions in our hostel where we would sit and see all kind of TV programmes and chit-chat and eat Maggi.

## Tarun Nagar

**ROLL NO.**  
**96/ME/297**

**BATCH**  
**2000**

**BRANCH**  
**Mechanical Engineering**

**PRESENT AFFILIATION**  
**Divisional Manager, Mercedes-Benz**

**COUNTRY : India**

**Spouse's Name**  
**Shilpa Jain**

**Spouse's Engagement**  
**Home maker**

### Brief Bio-sketch

- A Journey of Excellence in Automotive Industry
- Tarun Nagar completed his Bachelor of Mechanical Engineering from Delhi College of Engineering in the year 2000. Shortly after graduation, he embarked on his professional journey by joining the greenfield project of Honda Motorcycle & Scooters India, the creators of the iconic "Activa". Over the next eight years, Tarun honed his skills in various domains such as factory construction, supplier quality assurance and engineering quality. He successfully installed and operated the Emissions Test Laboratory, Robotic Dynamometer, and Motorcycle Test Track at Honda's parent factory at Manesar, playing a pivotal role in the development and certification of Honda scooter models "Dio" and "Eterno." He furthered his education by completing an Executive MBA in 2006.
- Seeking new challenges, Tarun added more wheels to his career by joining Mercedes-Benz India. In his initial years, he focused on the certification of Mercedes-Benz Commercial Vehicles, including the mining truck "Actros," City Buses, and Intercity Luxury Buses with 2 & 3 Axles. He owns the distinction of achieving the first "Bus Body Code" certification for the Mercedes-Benz Low Floor City Bus in India.
- In 2012-13, Tarun had the opportunity to work as an expat at the Epitome of Automotive Excellence, The Mercedes-Benz Headquarters in Stuttgart, Germany. This experience broadened his horizons and allowed him to work on numerous assignments related to the Indian certification of Mercedes-Benz models like the S-Class, E-Class, and B-Class. Under his leadership, Mercedes-Benz achieved India's first BS-VI certification for its model S350d.
- Currently, Tarun is responsible for the certification management of the Passive Safety Regulations of the entire India portfolio in addition to full certification of EQS and E-Class models. He is a well-known figure in the field of Passive Safety Certification and Automotive Regulatory Forums. His contributions to the development of Indian regulations on Fuel Efficiency, Pedestrian Protection, Child Safety etc. have been significant. Recently, he was recognized by the Automotive Research Association of India (A Research Institute under The Ministry Of Heavy Industries) for his contributions to the "Automotive Industry Standards Committee". He earns the credit for achieving the first Indian certification of Crash Regulations for the S-Class during 2016-17.
- Tarun has also worked closely with the Mercedes-Benz legal team on various occasions, providing technical inputs to legal claims, the most notable being the Supreme Court imposed ban of Diesel cars in Delhi. He was personally present in the Supreme Court to support Mercedes-Benz lawyers during the hearing of the case.
- Additionally, Tarun has been instrumental in training Mercedes-Benz R&D employees on compliance aspects of certification, having trained over 1,000 colleagues to date. His expertise and insights have been shared at international forums, where he has presented on latest developments in the fields of Active and Passive Safety Technologies.
- Outside of his professional life, Tarun enjoys going on small excursions with his family and friends on weekends, finding joy and relaxation in exploring new places and creating lasting memories.

## Saurabh Shankar

**ROLL NO.**  
**96/ME/290**

**BATCH**  
**2000**

**BRANCH**  
**Mechanical Engineering**

**PRESENT AFFILIATION**  
**Research Scholar, IDC School of Design, IIT Bombay**

**COUNTRY : India**

**Spouse's Name**  
**Gaura**

**Spouse's Engagement**  
**Fashion Designer**

### Brief Bio-sketch

- My post-college journey has been one of constant exploration, stepping into new roles and domains, gathering experiences, mostly good :-) along the way. Over the past 25 years or so, I've had the chance to work in a range of industries from Banking and Agri-Equipment to Consumer Finance, Automobiles, Test-Preparation, Stock Broking, Ed-Tech, and General Insurance. And, on this journey, I've tried my hand at some super exciting roles — product management, channel and sales management, analytics, digital business, relationship management, technology, consulting, and business strategy.
- Right now, I'm onto my next adventure- diving into research at the IDC School of Design at IIT Mumbai. The goal is to apply design thinking to create scalable tools that can improve math learning for underserved students in municipal schools. It's a journey that's still unfolding, and while it's far from finished, it might just become one of the more meaningful chapters in my career!

Spouse's Engagement  
Private equity

### Brief Bio-sketch

- Over 22+ years of work experience. Currently working as a Partner with Dalberg, a global management consulting working on the most pressing social impact in the world. I focus on issues around women's economic empowerment, building climate-resilient and inclusive cities, and assisting governments and the private sector in executing strategies.
- Previously, I worked as the Deputy Regional CEO for Lodha Group (India's largest Real Estate developer) managing a 2,000 Cr annual turnover business. At the beginning of my career, I worked as a management consultant with the Boston Consulting Group in London, and as a technology consultant with Sapient in US, UK and India. I have done my MBA from London Business School, and Bachelor of Engineering from Delhi College of Engineering. I have academically been on the top of my institutions, Dean's list at LBS, and been awarded Chief Minister's award and Best Candidate in Technical Education by Delhi University.

## Manas Kumar Mallik

ROLL NO.  
**96/EC/064**

BATCH  
**2000**

BRANCH  
**Electronics & Communication Engineering**

PRESENT AFFILIATION  
**Cofounder & CTO, Reelcraft AI**

COUNTRY : **India**

Spouse's Name  
**Paromita Das**

Spouse's Engagement  
**Architect**

### Brief Bio-sketch

- Manas K. Mallik is a technology leader, entrepreneur, and AI innovator with over 24 years of experience in AI, speech recognition, digital signal processing, fintech, and automation. He has built and led multiple high-impact technology ventures, from pioneering India's first text-to-speech system in 2001 to developing cutting-edge Generative AI solutions.
- Currently, he is the Co-Founder & CTO of ReelCraft, an AI-powered video creation platform that democratizes storytelling. ReelCraft enables content creators, marketers, and businesses to effortlessly generate engaging videos using AI-driven automation. Since its launch, ReelCraft has:
  - 342000+ users and 2100+ paid customers
  - Over 217,000 videos created on the platform
  - Generated \$400K in revenue till now
  - Established a growing SaaS subscription model
- Manas's expertise spans Generative AI, agentic workflows, LLMs, cloud computing, scalable distributed systems, fintech, and speech synthesis. He has a proven track record of building high-performance engineering teams, defining AI-driven product strategies, and scaling cloud infrastructures.
- A Career Rooted in Innovation & Problem-Solving
- Manas has held key leadership roles across startups and high-growth companies, consistently pushing the boundaries of AI, automation, and digital transformation. His notable contributions include:
  - TartanHQ (CTO & Founding Team, 2021-2023): Led a 40+ member engineering team, building fintech income verification APIs and a marketplace platform. Architected secure cloud infrastructures, ensuring ISO 27001 & SOC2 compliance.
  - CRED (Labs & Automation Lead, 2019-2021): Developed proximity communication protocols using audio, Bluetooth, and Wi-Fi. Built automated testing frameworks for mobile applications.
  - UltraCash (Chief Architect, 2014-2016): Developed a secure mobile payment system using sound waves as an NFC alternative, implementing advanced encryption and authentication mechanisms.
  - Ubona Technologies (Chief Architect, 2008-2014): Built AI-driven voice solutions, including audio fingerprinting, speech analysis, and song recognition, scaling services to 150M+ calls per month.
- Prologix & Avaya (2001-2008): Led the development of India's first text-to-speech (TTS) system, innovating speech synthesis algorithms for Indian languages.
- Patents & Recognitions
  - Patent: Data Transfer via Mobile Devices for Cashless Transactions
  - Award: National Technology Award Winner for developing India's First Text-to-Speech System
- Exploring the Future: AI & Autonomous Agents
- Manas is deeply engaged in AI-driven automation and agentic workflows, exploring how autonomous AI agents can transform content creation, marketing automation, and business intelligence. His research includes:
  - AI-powered research assistants for knowledge synthesis and automation
  - Multi-agent AI collaboration to enhance productivity
  - Optimizing LLMs for better context-aware decision-making
- He actively experiments with ReAct, AutoGPT, and open-source AI frameworks while building solutions that bridge AI automation and human creativity.
- A Builder & Leader at Heart
- Manas is passionate about mentoring, fostering high-performance teams, and driving technological innovation. He thrives on solving complex problems and is always seeking ways to leverage AI for scalable, high-impact solutions. His goal is to push the boundaries of AI-powered automation and storytelling, making advanced AI accessible and useful for businesses and creators worldwide.

## Preeti Gureja

BRANCH  
**Mechanical Engineering**

PRESENT AFFILIATION  
**General Manager, ONGC Ltd**

COUNTRY : **India**

Spouse's Name  
**R Yamuna**

Spouse's Engagement  
**House Wife**

### Brief Bio-sketch

I was born in Chennai in the year 1978 and did my schooling up to Xth standard in Chennai. As my Father was transferred to New Delhi in the year 1994. I joined DTEA School for pursuing my senior secondary education at Delhi. Later, I joined Delhi College of Engineering in the year 1996 and chosen Mechanical Engineering branch as my stream based on my ranking in the entrance exam. I was a hosteler since joining the college as my parents got transferred back to Chennai. We were the first batch to stay in the Bawana Road campus. It was memorable moment in my life after joining college as I had good opportunity to interact with my friends and as hosteler we had enjoyed every moment of life and it was great learning process in my life. After passing out from DCE in 2000, As I focused to search my career in the core mechanical industries, I landed for working in Voltas Air conditioning and Refrigeration Company till 2001 for a short stint. Later on, I joined ONGC Ltd in Dehradun in March 2001. My journey is continuing at ONGC Ltd for the past 24 years, I had good opportunity to work in ONGC Mumbai Offshore which is a super-giant field for our country, and it was very challenging and good learning about the best industry practices in the Oil sector. Presently, I am posted at Assam in the capacity of General Manager (Production). I am blessed with my better half Mrs. R.Yamuna , Miss L.P Shreenidhi, our daughter who is pursuing her MBBS degree

## Gulshan Batra

(US)**

**COUNTRY : US**

**Spouse's Name**  
**Noopur Batra**

**Spouse's Engagement**  
**Ex-SAP Consultant, Homemaker**

### Brief Bio-sketch

- After graduation, joined MBA Program at IIT Delhi, and joined IFCI, India's oldest DFI, in 2002 in its Credit department as Appraisal Officer. In 2004, joined Infosys, in its Enterprise Solutions (ERP Services) unit, based out of Bangalore. Worked for a couple of years out of Basel (Switzerland), Minneapolis (US) and Mangalore, before moving to Tampa, Florida in 2011. Left Infosys in 2017, and have been with PwC (US) Group, in-house Finance Systems and Operations.

### Memorable Event/Experience in DCE

Being married to my college sweetheart, there are some memories that have stayed, but most now seem like looking through misted glass- pretty vignettes, but hazy on the details. Made some good friends, and wonderful memories! Engifest, mess food, a Jaipur trip, old campus Fluid Mechanics lab, and the surreal empty corridors of my final few weeks on campus- are some of the most striking moments. And then, cut to - The Convocation.

## Brief Bio-sketch

- My professional journey after DCE has been centered around what I learned there—automotive and industrial manufacturing. Along the way, I pursued an MBA from IIM Ahmedabad and had an entrepreneurial stint.
- I began My career at Maruti Suzuki in their R&D division. After gaining valuable experience, I pursued management education at IIM Ahmedabad.
- Following business school, I spent the first decade of my career in management consulting, primarily focusing on the automotive and industrial sectors. My professional journey includes roles at IBM, KPMG, EY, and Ricardo Strategy Consulting.
- In the past decade, my work has been innovation-driven. I co-founded an ed-tech startup, Fundamentor, with a few DCE batchmates. After that, I led Accenture's Innovation Hub in India. Over the last 4–5 years, I have been leading FutureBridge's Mobility and Industrial Consulting Practice, focusing on defining innovation and technology roadmaps for my clients.
- Some of my key achievements include winning Audi India's strategy contest and having my startup recognized by Facebook, the UK Government, and IBM.

## Memorable Event/Experience in DCE

1. Technocultural trip to Rajasthan in Dec 96.
2. Forming a DCEFOOLS Yahoo group with 9 of us batchmates in year 2000. We recently did our reunion in Barcelona

## Brief Bio-sketch

- After graduating from Delhi Technical University (then, Delhi College of Engineering), Nikhil started his career in the SAP IT wing of Essar group of companies. He worked on the ERP systems across the steel and power streams of the business at the facilities in India and Indonesia. The curiosity of exploring other industries brought him to Global IT team of Colgate-Palmolive. This gave Nikhil a wide playing field to learn and grow. Getting not only technical but also rich industry experience and exposure to global processes. Nikhil grew strength to strength in different areas of supply chain like planning, manufacturing, procurement, logistics and distribution, quality, warehousing, R&D and new product development, process improvements, systems consolidation and optimisation. Working with international and multi-cultural teams is one of his strengths. Changes in roles brought him to various places around the globe, Malaysia, Vietnam, US, Brasil, Mexico and several countries across Europe he has called home.
- He went on to pursue further learning in Supply chain management and Project Management. Getting APICS-CSCP and PMI-PMP designations
- Nikhil is supported by his lovely wife who is an accomplished Program Manager with Citibank. They are blessed with 2 children.
- He is currently based in Ireland. Most recently Nikhil is working with a consulting firm specialising in the area of supply chain functions. He is bringing over 25 years of experience from the diverse parts of supply chain helping companies who want to improve their processes, ways of working and systems.

### Brief Bio-sketch

- Nishant Aggarwal spent the first 15 years of his career as an IT Consultant specializing in Identity Management and Security, experiencing various cultures and leading teams across multiple locations in USA, China, and India. However, driven by a deeper purpose, he transitioned to the social sector, where he has since dedicated himself to impactful initiatives. As the Executive Director of Sewa International for seven years, he led projects in disaster management, poverty alleviation, skilling, livelihoods, women empowerment, and healthcare, benefiting over a million people in remote and marginalized communities.
- Currently, Nishant is based in Delhi and serves as the Director at the Donyi Polo Cultural & Charitable Trust in Arunachal Pradesh, working to preserve and promote indigenous cultures, languages, and traditions through Gurukuls. He is also an Executive Advisor to Surya Foundation, focusing on sustainable livelihoods in rural India. An alumnus of Azim Premji University and Delhi College of Engineering (now DTU), his journey reflects a conscious shift from corporate success to grassroots impact, blending strategic leadership with a commitment to social transformation.

## **Brief Bio-sketch**

- I started out by working in a Software Services firm in Gurgaon before moving onto a Stealth Network Infra startup. I stayed with this startup for 12+ years as it went through multiple acquisitions. In 2018 I decided to step out of my comfort zone and started an India focussed Cloud Transition/Infra Modernization startup, which unfortunately ran out of its allocated runway during the Covid pandemic and had to be shutdown in 2021. Following this, I joined a couple of old-time work colleagues of mine and started building up a services startup (now called GeminusTech) from ground up. It was a humbling educative experience for me to see this organization go from its seedling days to its present state of ~80 employees with bright growth prospects as I continue this journey.
- Inspired by my days at (then) DCE, I stay humble and rooted to the ground, and incessantly curious about the world, especially the tech world, around me.

### Brief Bio-sketch

- During college, lots of studies, huge dose of computers, and a little bit of antics. I remember a custom schedule for exams being put up, even before the authorities had a chance to. Lot of interesting reactions to it.
- Over the years on campus, lots of fun with smarts all around. Formula 1 and Tennis took up my time not spent elsewhere.
- After graduation, went to work in software for satellite communications and mobile networks Pune. During off-time, went biking and hiking all around Pune, an ideal place for it. Did a bit of social work in the later years.
- Started a quest.

### Brief Bio-sketch

- Started my professional journey with STMicroelectronics. Worked there for 16 years covering various domains - Memories, Digital Verification, RTL Designing, Soc FE flows and CPU design & Verification.
- After that, I started my company in the EdTech domain in 2016 Phase I was a K-12 tutor-student aggregator platform under the "itztutor" app and improving the overall efficiency of teaching class by accessing the strength and development areas of the student by conducting real-time online tests. Due to lack of funding, was not able to scale it to the level I initially thought of and decided to close the project after 2 years of hardship even though it was generating revenue and there were thousands of tutors associated with the platform. Quite a tough call..
- Once again back to corporate and joined Qualcomm. Worked there for ~4 years leading the CPU design team and then left it to start something of my own.
- Still working on ideas that can be put in production and monetized.

# ALUMNI AFFAIRS DELHI TECHNOLOGICAL UNIVERSITY

Established by the Govt. of NCT of Delhi vide Act 6 of 2009  
(Formerly Delhi College of Engineering)

Shahbad Daulatpur, Bawana Road, Delhi-110042

Website : [www.dtu.ac.in](http://www.dtu.ac.in)

The **HOECOMING MEET, 2025** has given us innumerable golden moments to smile, cherish and preserve. A treasure trove of memories has been unboxed and the DTU fraternity shall hold it close to their hearts forever. It has been an absolute honour to host our DCE/DTU alumni on the campus premises. This Coffee Table Book is our way to document our Alumni's journey of life as well as efforts towards creating an identity for themselves and their alma mater. We also value our alumni's enriching contributions towards making DTU a premier academic institution as we take huge strides towards becoming a world-class University. DTU takes immense pride in preserving these valuable memories for posterity to know, learn and emerge wiser with these shared moments of awe and glory.
